

Deployment Date: 6/24/2019

Hot Fix: cp711_patch7173_001.zip; cp711_patch7172_001.zip; cp711_symusr_018.zip

OTHERS/SYSTEM ADMINISTRATION/SYMUSR/Maintain Users

[Deltek Defect Tracking Number:](#)

1118086

[Issues Resolved:](#)

Description: A new FIDO Single Sign On check box is added to the Authentication Combo section on the Manage Users (SYMUSR) application. Also, the number of default authentication options are expanded in Configure System Settings (SYMSETNG) to match the authentication options supported in the Manage Users application. You can select the default authentication options if you do not want to auto-create user accounts. The defaults are now automatically applied in Manage Users when you add a new record.

There is also a new configuration option for how long self-service e-mails (capability URLs) can be valid in Configure System Settings under Corporate Settings.

Customers Impacted: This enhancement affects Costpoint 7.1.1 users.

Workaround Before Fix: Not applicable.

Additional Notes: The following files are required.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

More Information:
