Defect Corrections 2

Overview

This document describes hot fix defect corrections applied to your production environment July 20, 2018.

Defect Corrections

Time & Expense >> Expense >> Batch Expense >> Manage Batch Expense

Defect: 926454

Description: When you posted imported expenses, you received an error message if the number of connections requested by the application exceeded twenty.

Customers Impacted: This affects clients who use the Expense module.

Admin>> Workflow >> Approval Workflow>> Approval Workflow Models

Defect: 973305

Description: When modifying an existing Workflow Model, you received a "java.lang.NumberFormatException: For input string: " error message.

Admin>> System Administration >> Content Management >> Manage Content Types

Defect: 948768

Description: Costpoint is updated to successfully enter a record in the Manage Content Types (SYMCMICT) application using a web service.

Customers Impacted: This issue affects Costpoint 7.1.1 Manage Content Types (SYMCMICT) application users.

Admin>> System Administration >> Content Management >> Manage Content Types

Defect: 950860

Description: Costpoint is updated to show the linked content files for applications with an extended result set in the Linked Content Files subtask.

Customers Impacted: This issue affects users of the Manage Content Types (SYMCMICT) application.

Admin>> System Administration >> Content Management >> Manage Application Content Links

Defect: 950787

Description: Costpoint is updated to return queried records with an application/content link for an extended result set, in the Manage Application/Content Links (SYMCMIAL) application.

Customers Impacted: This issue affects Costpoint 7.1.1 users.

Projects >> Billing >> Standard Bills Processing >> Calculate Standard Bills

Defect: 949078

Description: An incorrect sales tax was computed when you calculated a bill for a project with both inter-company work order (cost transfer) and regular bill transactions. This happened when you selected Transactional in Rate Type on the Link Project Labor Category Rates to Projects screen and also selected the Use Transactional Currency Billing check box on the Manage Project Billing Information screen.

Customers Impacted: This defect affects Costpoint users.

Projects >> Billing >> Standard Bills Processing >> Calculate Standard Bills

Defect: 917310

Description: The Fee on Labor and Other lines were not displayed correctly based on the Generic Billing Format mapping.

Defect Corrections

Customers Impacted: This defect affects Costpoint users.

Projects >> Billing >> Standard Bills Processing >> Calculate Standard Bills

Defect: 917310

Description: When **Pool Number** was set to **1** and a generic billing format was used with a fee row setup set to **Y** but with no pool number mapped, the fee for Direct Cost was mapped to the **OTHER** line.

Customers Impacted: This defect affects Costpoint users.

The following Patch was also deployed: 7147
