Overview

Welcome to the Deltek Costpoint Talent Management Integration Technical Guide.

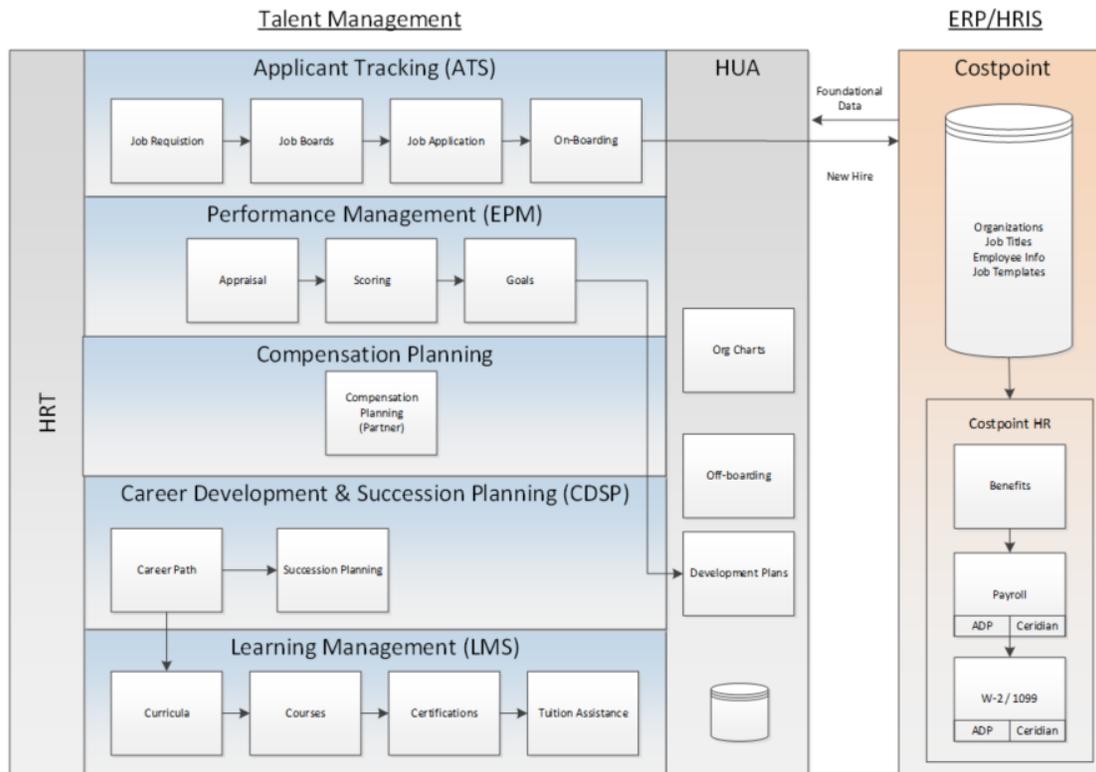

This guide provides the data mapping between Costpoint objects and Talent Management objects. The mapping is used in the integration process.

This guide also contains troubleshooting steps for checking issues that may have occurred during the integration.

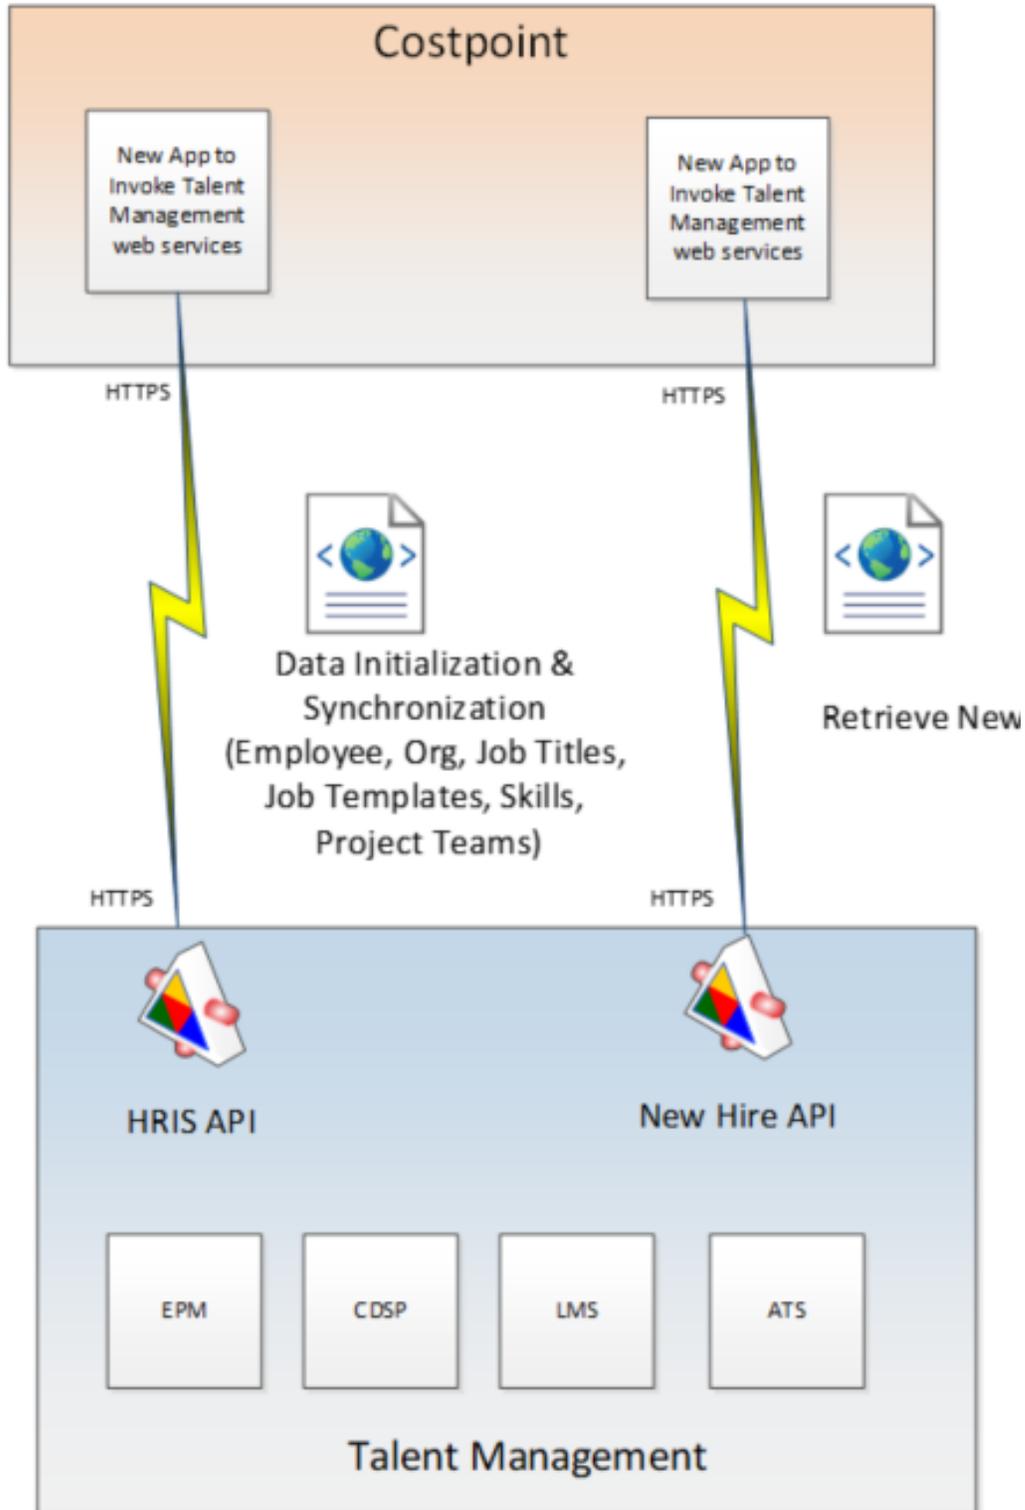

Integration Overview

The integration between Costpoint and Talent Management utilizes existing and new APIs in the Talent Management.

In Costpoint, you can perform integration through the Transfer Talent Management Data application. You can run the process on demand or scheduled through process server. It handles both export of data to Talent Management, initial load and synchronization, and import of new hires into Costpoint from Talent Management. The diagram below provides a visualization of the interface.

The diagram below depicts integration from a technical implementation perspective.

Integration Configuration

In order for Costpoint – Talent Management Integration to work, you must enable Talent Management integration in the Costpoint Configuration Utility and enter the proper connection settings.

Configure the Costpoint - Talent Management Integration Connection Settings

Use the Costpoint Configuration Utility to set up the integration.

To configure the Costpoint - Talent Management Integration connection settings, complete the following steps:

1. Open the Costpoint Configuration Utility.
2. Click the Costpoint tab, and then click the Talent Management tab.
3. Select the **Use Talent Management Integration** check box to allow the integration.
4. In the **Talent Management URL Options** group box, select the option for site of the web service that you will use.

Option	Description
Production	Select this option to set Talent Management Web Service URL value to https://soa.hrsmart.com .
Development	Select this option to set Talent Management Web Service URL value to https://soadev.hrsmart.com .
Other	Select this option to enter a custom site in the Talent Management Web Service URL field.

5. Enter the Talent Management connection details in the following fields.

Option	Description
Talent Management Web Service URL	If you selected either Production or Development option in the Talent Management URL Options group box, this field is disabled and it displays predefined values based on the option you selected. If you selected the Other option in the Talent Management URL Options group box, enter the Talent Management web service site that you will use for integration. For example, <code>https://costpointsoa.appdev.hua.hrsmart.com</code> . When you enter a custom URL, do not include the path <code>"/API/gateway.php"</code> .
Password (Auth Token)	Enter the authentication token provided by Talent Management.

Option	Description
Confirm Password	Enter the authentication token again to confirm the value.
Number of Rows Per Call	Enter the number of records (from 1 to 24999) to be sent per call to the web service.
Connection Timeout	Enter the time in milliseconds for Costpoint to wait for a connection before it timeouts.
Request Timeout	Enter the time in milliseconds for CP to wait for a response once a request has been sent before it will timeout.

6. Click **Test** to check if the connection settings are correct.
7. Restart all WebLogic servers or run the Rebuild Global Settings screen in Costpoint to allow the changes to take effect.

Attention: For more information on using the Costpoint Configuration Utility application, please refer to the [Deltek Costpoint Configuration Utility guide](#).

Initialize Deltek Talent Management HUA ID to Costpoint Employee ID Mapping

Before you use Costpoint's Auto-Assign Employee ID feature, you must run the Link Talent Management User IDs to Existing Employees toolkit based on your current Costpoint/Deltek Talent Management setup.

You must run the Link Talent Management User IDs to Existing Employees toolkit after downloading the Auto-Assign Employee IDs feature and before importing or exporting employees in the Transfer Talent Management Data screen. Running this toolkit will populate the HUA ID and Active HUA ID Mapping columns in the Manage Employee Information table (EMPL.hua_id and EMPL.hua_actv_map_fl).

Refer to the following scenarios and perform the corresponding steps that apply to your company's setup.

Scenario 1

You currently use both products, Costpoint 7.1.1 (or higher) and Deltek Talent Management, and you installed Costpoint's Auto-Assign Employee ID feature which was released in June 2018.

Step	Product	Details
1	Deltek Talent Management	Generate the export_user_id_file file in Deltek Talent Management's Administration » Global Settings » Integration Setup » Costpoint » Costpoint Configuration Check screen.

Step	Product	Details
		This file maps the Talent Management user IDs (HUA IDs) to the Costpoint employee IDs.
2	Costpoint	Use the export_user_id_file file you just generated in Deltek Talent Management to run the People » Employee » Employee Utilities » Link Talent Management User IDs to Existing Employees toolkit. You must complete this step before you will be able to import new users from Deltek Talent Management.
3	Costpoint	<p>Determine if you want to allow Costpoint to auto generate employee IDs.</p> <p>If you choose to auto-generate employee IDs, you will not be able to use Costpoint's Import Employee Data application to import employees using a data file.</p> <ul style="list-style-type: none"> ▪ If you would like Costpoint to auto-generate Employee IDs for new hires that come from Deltek Talent Management, proceed to Step 4. ▪ If you do not want Costpoint to auto-generate Employee IDs for new hires that come from Deltek Talent Management, you have completed the required steps and are ready to start importing new hires from Deltek Talent Management.
4	Costpoint	<p>Go to People » Labor » Labor Controls » Configure Labor Settings screen, select the Auto-Generate Employee IDs check box, and then save the record.</p> <div style="border: 1px solid blue; padding: 5px;"> <p>Note: If you select the Auto-Generate Employee IDs check box, you must set up employee ID format and defaulting rules on the following screens:</p> <ul style="list-style-type: none"> ▪ Manage Employee ID Formats: You must use this screen to set up the rules for auto-generating employee IDs. ▪ Manage Employee ID Defaulting Rules: You must use this screen to set up the rules for implementing the employee ID formats. Use this screen after establishing the formatting of employee IDs on the Manage Employee ID Formats screen. </div>
5	Costpoint	Go to Administration » System Administration » System Administration Utilities » Rebuild Global Settings screen, select the Labor option in the Individual Settings group box, and then run the application process.

Scenario 2

You currently use Deltek Talent Management and you purchased Costpoint version 7.1.1 after May 2018.

Step	Product	Details
1	Costpoint	<p>Go to People » Labor » Labor Controls » Configure Labor Settings screen, and ensure that the Auto-Generate Employee IDs check box is not selected.</p> <div style="border: 1px solid blue; padding: 5px;"> <p>Note: If the Auto-Generate Employee IDs check box is selected, clear the check box. After saving your changes, go to the Rebuild Global Settings screen, select the Labor option in the Individual Settings group box, and then run the application process.</p> </div>
2	Costpoint	<p>Create employee records in Costpoint. You can create employee records by performing either of the following methods:</p> <ul style="list-style-type: none"> ▪ Entering employee records on People » Employee » Basic Employee Information » Manage Employee Information screen ▪ Importing an employee file on <div style="border: 1px solid blue; padding: 5px;"> <p>Note: People Employee Employee Interfaces Import Employee Data</p> </div> <p>screen</p>
3	Deltek Talent Management	Manually assign the newly created Costpoint employee IDs to your existing Talent Management users.
4	Deltek Talent Management	Generate the export_user_id_file file in Deltek Talent Management's Administration » Global Settings » Integration Setup » Costpoint » Costpoint Configuration Check screen. This file maps the Talent Management user IDs (HUA IDs) to the Costpoint employee IDs.
5	Costpoint	Use the export_user_id_file file you just generated in Deltek Talent Management to run the People » Employee » Employee Utilities » Link Talent Management User IDs to Existing Employees toolkit. You must complete this step before you will be able to import new users from Deltek Talent Management.
6	Costpoint	<p>Determine if you want to allow Costpoint to auto generate employee IDs.</p> <p>If you choose to auto-generate employee IDs, you will not be able to use Costpoint's Import Employee Data application to import employees using a data file.</p>

Step	Product	Details
		<ul style="list-style-type: none"> If you would like Costpoint to auto-generate Employee IDs for new hires that come from Deltek Talent Management, proceed to Step 4. If you do not want Costpoint to auto-generate Employee IDs for new hires that come from Deltek Talent Management, you have completed the required steps and are ready to start importing new hires from Deltek Talent Management.
7	Costpoint	<p>Go to People » Labor » Labor Controls » Configure Labor Settings screen, select the Auto-Generate Employee IDs check box, and then save the record.</p> <div style="border: 1px solid blue; padding: 5px;"> <p>Note: If you select the Auto-Generate Employee IDs check box, you must set up employee ID format and defaulting rules on the following screens:</p> <ul style="list-style-type: none"> Manage Employee ID Formats: You must use this screen to set up the rules for auto-generating employee IDs. Manage Employee ID Defaulting Rules: You must use this screen to set up the rules for implementing the employee ID formats. Use this screen after establishing the formatting of employee IDs on the Manage Employee ID Formats screen. </div>
8	Costpoint	<p>Go to Administration » System Administration » System Administration Utilities » Rebuild Global Settings screen, select the Labor option in the Individual Settings group box, and then run the application process.</p>

Scenario 3

You currently use Costpoint 7.1.1 (or higher) and you purchased Deltek Talent Management after May 2018.

Step	Product	Details
1	Costpoint	<p>Go to People » Employee » Employee Interface » Transfer Talent Management Data screen, and run a full export of the following:</p> <ul style="list-style-type: none"> Employees Organizations Job Templates

Step	Product	Details
		<ul style="list-style-type: none"> Detail Job Titles Labor Locations <div style="border: 1px solid blue; padding: 5px; margin-top: 10px;"> <p>Note: You may opt to exclude employees that were terminated before a specific date.</p> </div>
2	Deltek Talent Management	<p>Generate the export_user_id_file file in Deltek Talent Management's Administration » Global Settings » Integration Setup » Costpoint » Costpoint Configuration Check screen. This file maps the Talent Management user IDs (HUA IDs) to the Costpoint employee IDs.</p>
3	Costpoint	<p>Use the export_user_id_file file you just generated in Deltek Talent Management to run the People » Employee » Employee Utilities » Link Talent Management User IDs to Existing Employees toolkit. You must complete this step before you will be able to import new users from Deltek Talent Management.</p>
4	Costpoint	<p>Determine if you want to allow Costpoint to auto generate employee IDs.</p> <p>If you choose to auto-generate employee IDs, you will not be able to use Costpoint's Import Employee Data application to import employees using a data file.</p> <ul style="list-style-type: none"> If you would like Costpoint to auto-generate Employee IDs for new hires that come from Deltek Talent Management, proceed to Step 4. If you do not want Costpoint to auto-generate Employee IDs for new hires that come from Deltek Talent Management, you have completed the required steps and are ready to start importing new hires from Deltek Talent Management.
5	Costpoint	<p>Go to People » Labor » Labor Controls » Configure Labor Settings screen, select the Auto-Generate Employee IDs check box, and then save the record.</p> <div style="border: 1px solid blue; padding: 5px; margin-top: 10px;"> <p>Note: If you select the Auto-Generate Employee IDs check box, you must set up employee ID format and defaulting rules on the following screens:</p> <ul style="list-style-type: none"> Manage Employee ID Formats: You must use this screen to set up the rules for auto-generating employee IDs. </div>

Step	Product	Details
		<ul style="list-style-type: none"> ▪ Manage Employee ID Defaulting Rules: You must use this screen to set up the rules for implementing the employee ID formats. Use this screen after establishing the formatting of employee IDs on the Manage Employee ID Formats screen.
6	Costpoint	Go to Administration » System Administration » System Administration Utilities » Rebuild Global Settings screen, select the Labor option in the Individual Settings group box, and then run the application process.

Scenario 4

You purchased both products, Costpoint 7.1.1 (or higher) and Deltek Talent Management, after May 2018.

Step	Product	Details
1	Costpoint	<p>Create employee records in Costpoint. You can create employee records by performing either of the following methods:</p> <ul style="list-style-type: none"> ▪ Entering employee records on People » Employee » Basic Employee Information » Manage Employee Information screen ▪ Importing an employee file on People » Employee » Employee Interfaces » Import Employee Data screen
2	Costpoint	<p>Go to People » Employee » Employee Interface » Transfer Talent Management Data screen, and run a full export of the following:</p> <ul style="list-style-type: none"> ▪ Employees ▪ Organizations ▪ Job Templates ▪ Detail Job Titles ▪ Labor Locations
3	Deltek Talent Management	<p>Generate the export_user_id_file file in Deltek Talent Management's Administration » Global Settings » Integration Setup » Costpoint » Costpoint Configuration Check screen. This file maps the Talent Management user IDs (HUA IDs) to the Costpoint employee IDs.</p>
4	Costpoint	<p>Use the export_user_id_file file you just generated in Deltek Talent Management to run the People » Employee » Employee Utilities » Link Talent Management User IDs to Existing</p>

Step	Product	Details
		Employees toolkit. You must complete this step before you will be able to import new users from Deltek Talent Management.
5	Costpoint	<p>Determine if you want to allow Costpoint to auto generate employee IDs.</p> <p>If you choose to auto-generate employee IDs, you will not be able to use Costpoint's Import Employee Data application to import employees using a data file.</p> <ul style="list-style-type: none"> ▪ If you would like Costpoint to auto-generate Employee IDs for new hires that come from Deltek Talent Management, proceed to Step 4. ▪ If you do not want Costpoint to auto-generate Employee IDs for new hires that come from Deltek Talent Management, you have completed the required steps and are ready to start importing new hires from Deltek Talent Management.
6	Costpoint	<p>Go to People » Labor » Labor Controls » Configure Labor Settings screen, select the Auto-Generate Employee IDs check box, and then save the record.</p> <div style="border: 1px solid blue; padding: 5px;"> <p>Note: If you select the Auto-Generate Employee IDs check box, you must set up employee ID format and defaulting rules on the following screens:</p> <ul style="list-style-type: none"> ▪ Manage Employee ID Formats: You must use this screen to set up the rules for auto-generating employee IDs. ▪ Manage Employee ID Defaulting Rules: You must use this screen to set up the rules for implementing the employee ID formats. Use this screen after establishing the formatting of employee IDs on the Manage Employee ID Formats screen. </div>
7	Costpoint	Go to Administration » System Administration » System Administration Utilities » Rebuild Global Settings screen, select the Labor option in the Individual Settings group box, and then run the application process.

Errors

All warnings and errors are written to a log file (EMPTMUI_yymmddhhTms.log). The log file will be saved in the location specified in the **File Location** field of the Link Talent Management User IDs to Existing Employees toolkit. If a location has not been specified, warnings and errors will be written to the database and you can retrieve it from the File Download (SYMDLMGR) screen.

Data Mapping

This section provides information about mapping of data that used in the integration between the Costpoint and Talent Management systems.

Costpoint to Talent Management Data Mapping

The integration provides the ability to export data from Costpoint to Talent Management.

The integration data from Costpoint to Talent Management consists of the following items. Note the different data names between Costpoint and Talent Management.

Costpoint Data	Talent Management Data
Company/Organization	Organization Levels
Detail Job Titles/Positions	Job Profiles
Employees	Users
Job Templates	Costpoint Job Templates
Labor Locations	Locations
Skills	Skills

Organization Levels

Talent Management Organization levels directly relate to Costpoint's Company and Organization structure.

Below is how the data is mapped to Talent Management:

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
org_level_code	Unique Identifier for HRIS system	N	Top Level (Company): Populate with the COMPANY_ + ORG.company_id Lower Level(s) – Organization: Populate with the Organization's Name (ORG.org_id)
org_level_name	Name of division	Y	Top Level (Company): Populate with the GL_CONFIG.company_name Lower Level(s) – Organization:

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
			Populate with the Organization's Name (ORG.org_name) + (ORG.org_id)
org_level_parent_code	Direct parent of child	N	<p>Top Level (Company): Populate with 'top_level'</p> <p>Lower Level(s) – Organization:</p> <p>IF the Organization is a top level organization (ORG.org_top_fl = 'Y')</p> <p>THEN populate with COMPANY_+ ORG.company_id</p> <p>(Example: If the ORG_ID is 1 and it's linked to company AAA, then send 'COMPANY_AAA')</p> <p>ELSE (IF the Organization is not a top level organization (ORG.org_top_fl = 'N'))</p> <p>THEN populate with the Organization's parent ORG.org_id (Example: If the ORG_ID is 1.2.3, then send '1.2')</p> <p>END IF</p>
org_level_parent_name	Direct parent of child's name	N	N/A

Job Profiles

Talent Management Jobs directly relate to Costpoint's Detail Job Titles and Positions.

This data only if licensed for Costpoint HR. Below is how the data is mapped to Talent Management:

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
job_code	Unique identifier for a requisition	Y	<EE Detl Job Title> 'COMPANY_' + <EMPL.company_id.> EE Detl Job Title — This value comes from EMPL_LAB_INFO.dctl _job_cd where effect_dt <= System Date and end_dt >= System Date
job_title	Title of the job that will be displayed to job seekers.	Y	DETL_JOB_TITLES.d etl_job_desc
salary_grade	Salary grade associated to the job	N	N/A
division	Division code	N	IF Detail Job Title Position Exists with Org ID Top Org level of H_DETL_POS_DESC. org_id where H_DETL_POS_DESC. dctl_job_cd = DETL_JOB_TITLES.d etl_job_cd ELSE N/A
company_code	Company code	N	This is the 'COMPANY_' + <Comp any ID> from the Job Code.
job_family	Job family name	N	N/A
Job_duration	Number of months typically a person remains in this position before advancement	N	N/A

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
job_description	Detailed description of the job	Y	IF Detail Job Position exists for Detail Job Code and result of this logic is not NULL, then populate with: H_DETL_POS_DESC.short_desc where H_DETL_POS_DESC.dctl_job_cd = DETL_JOB_TITLES.dctl_job_cd + <space> + H_DETL_POS_DESC.duties_tx where H_DETL_POS_DESC.dctl_job_cd = DETL_JOB_TITLES.dctl_job_cd + <space> + H_DETL_POS_DESC.other_info_nt where H_DETL_POS_DESC.dctl_job_cd = DETL_JOB_TITLES.dctl_job_cd ELSE Populate with 'No job description available'
job_requirements	Extra information about job	N	N/A (“:.” passed so Talent Management knows not to overwrite)
external_job_title	Value displayed on the external site as the job title (if used)	N	DETL_JOB_TITLES.ext_detl_job_title
education	Education required	N	N/A
job_role	Client specific grouping of jobs by role	N	N/A
job_function	Function of the job	N	N/A
job_level	Career level	N	N/A
cost_center	Cost center	N	N/A

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
cost_center_code	Cost center code	N	N/A
job_grade	Job grade	N	N/A
job_key	Key job	N	N/A
job_type	Job type	N	<p>Costpoint Employee Type =</p> <p>IF the Costpoint Detail Job Title being exported exists in the Manage Detail Position Descriptions (H_DETL_POS_DESC) table</p> <p>THEN Costpoint Employee Type = the Position Type assigned to the Detail Job Title in the Manage Detail Position Descriptions table (H_DETL_POS_DESC .s_empl_type_cd)</p> <p>END IF</p> <p>Talent Management job_type =</p> <p>IF Costpoint Employee Type = 'R'</p> <p>THEN populate with 'Full-Time'</p> <p>ELSE IF Costpoint Employee Type = 'P'</p> <p>THEN populate with 'Part-Time'</p> <p>ELSE IF Costpoint Employee Type = 'T'</p> <p>THEN populate with 'Temporary'</p> <p>ELSE</p> <p>THEN send NULL value</p> <p>END IF</p>

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
job_classification	Job classification	N	N/A
eeoc_job_category	EEOC job category	N	N/A
eeoc_job_group	EEOC job group	N	N/A
travel	Travel required	N	N/A
location_code	Location of the job	N	N/A
location_group	Location region assigned to the job	N	N/A
requisition_position_type	Requisition position type name to assign to the job	N	N/A

Users

Talent Management Users directly relate to Costpoint's Employees.

Below is how the data is mapped to Talent Management:

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
user_id	Talent Management's unique user id (Should be sent to HRIS first through new hire export)	N	N/A (Assigned in Talent Management)
user_email	User email	Y	IF EMPL.email_id is not NULL THEN populate with the EMPL.email_id ELSE (IF EMPL.home_email_id is NOT NULL) THEN populate with the EMPL.home_email_id
user_firstname	User's first name	Y	EMPL.first_name
user_middlename	User's middle name/initial	N	EMPL.mid_name
user_lastname	User's last name	Y	EMPL.last_name
user_employee_id	User's employee ID - user's unique identifier	N	EMPL.empl_id

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
user_login	User's unique username (typically the email)	Y	IF EMPL.email_id is not NULL THEN populate with the EMPL.email_id ELSE (IF EMPL.home_email_id is NOT NULL) THEN populate with the EMPL.home_email_id
user_lockedout	Alias for the user_lockedout field	N	N/A
user_password	User's password to login	N	N/A
user_address_one	User's home address - line 1	N	EMPL.ln_1_adr
user_address_two	User's home address - line 2	N	EMPL.ln_2_adr
user_address_three	User's home address - line 3	N	EMPL.ln_3_adr
user_city	User's home city	N	EMPL.city_name
user_state	User's state or province abbreviation	N	EMPL.mail_state_dc
user_zipcode	User's home postal code	N	EMPL.postal_cd
user_country	User's home country	N	IF the employee's EMPL.country_cd is NULL and the EMPL.ssn_id != '999999999' THEN populate with 'US' ELSE IF the employee's EMPL.country_cd is not NULL THEN populate with the COUNTRY.iso2_cd where

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
			EMPL.country_cd = COUNTRY.country_cd END
phone_work	User's work phone number	N	EMPL_PHONE.phone_id where phone_type_dc = 'WORK'
phone_data	User's phone data	N	N/A
phone_home	User's home phone number	N	EMPL_PHONE.phone_id where phone_type_dc = 'HOME'
phone_mobile	User's mobile phone number	N	EMPL_PHONE.phone_id where phone_type_dc = 'MOBILE'
phone_pager	User's pager number	N	EMPL_PHONE.phone_id where phone_type_dc = 'PAGER'
phone_fax	User's fax phone number	N	EMPL_PHONE.phone_id where phone_type_dc = 'FAX'
user_hire_date	User's hire date	N	EMPL.orig_hire_dt
user_dob	User's date of birth	N	EMPL.birth_dt
user_location	User's work location	N	<EE Location> '+_COMPANY_'+ <EMPL.company_id.> EE Location — This value comes from Employee's EMPL_LAB_INFO.lab_loc_cd where effect_dt <= System Date and end_dt >= System Date.
user_status	User's exemption status	N	Based on EMPL_LAB_INFO.ex_mpt_fl where effect_dt <= System Date and

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
			end_dt >= System Date If EMPL_LAB_INFO.ex mpt_fl = 'Y' Populate with 'EXEMPT' Otherwise Populate with 'NON- EXEMPT'
user_org_level	Org level (Company/ Division/Department) assigned to the user	N	EMPL_LAB_INFO.org _id where effect_dt <= System Date and end_dt >= System Date
job_code	Job of the employee	N	EMPL_LAB_INFO.detl _job_cd where effect_dt <= System Date and end_dt >= System Date
position_code	Current position assigned to the employee	N	N/A
user_manager	User's manager (employee ID)	N	EMPL_LAB_INFO.mgr _empl_id where effect_dt <= System Date and end_dt >= System Date
user_peer_appraisers	User's peer appraiser that is associated with their appraisal (employee ID)	N	N/A
user_matrix_managers	User's matrix manager/appraiser that is associated with their appraisal (employee ID)	N	N/A
user_approvers	Approver associated with this appraisal. For example, HRdepartment. (employee ID)	N	IF the client is licensed for Costpoint HR and the Manager Defaulting Method from the Configure

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
			<p>Personnel Settings screen = 'Company-Wide Organization' and an HR Representative is assigned to the Home Organization in the Manage Managers/HR Reps by Organization table</p> <p>Populate this field with the HR Representative assigned to the Home Org (ORG_MGR_DFLT.hr_rep_empl_id where home_org_id = employee's Home Org)</p> <p>IF the client is licensed for Costpoint HR and the Manager Defaulting Method from the Configure Personnel Settings screen = 'HR Organization' and an HR Representative is assigned to the HR Organization in the Manage Managers/HR Reps by HR Organization table</p> <p>Populate this field with the HR Representative assigned to the HR Org (HR_ORG_MGR_DFLT.hr_rep_empl_id where hr_org_id = employee's HR Org)</p>
hrbps	HR Business Partner for a user. It will add the listed ones under this column to the	N	N/A

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
	HRBP group and make them HRBP for the user in the related record. (employee ID)		
user_group	Assigned user group name. For multiple groups, this value is comma-separated without spaces around commas. For example, "Manager, Employee, Recruiter".	Y	N/A
active/inactive	This field will be used to indicate if the user is active or inactive. If inactive the user will not be able to log into the HRsmart system.	Y	If EMPL.s_empl_status_cd = 'ACT' or 'FML' Populate with 'A' Otherwise populate with 'I'
national_identifier	National Identifier (SSN, CPF, PIN, NINO, ID NUMBER, SIN)	N	If EMPL.ssn = 999999999 N/A Else Populate with EMPL.ssn_id
last_working_date	Date when an employee was terminated. Any value here will deactivate the user. This populates the user termination date in Talent Management.	N	EMPL.term_dt
user_time_zone	User's time zone code	N	N/A
user_rehire_eligibility_id	Rehire eligibility of employee being terminated	Y	IF employee's EMPL.term_dt is not NULL THEN get the employee's Rehire Eligibility Code (EMPLOYMENT_HISTORY.rehire_eligibility_cd)

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
			<p>where the EMPLOYMENT_HISTORY.term_dt = the EMPL.term_dt</p> <p>Populate with the REHIRE_ELIGIBILITY.eligible_for_rehire value linked to the employee's Rehire Eligibility Code</p> <p>ELSE</p> <p>THEN do not populate this field</p> <p>END IF</p>
user_termination_reason	Defines the separation type	Y	<p>IF employee's EMPL.term_dt is not NULL</p> <p>THEN populate with the employee's Termination Type (EMPLOYMENT_HISTORY.term_type)</p> <p>where the EMPLOYMENT_HISTORY.term_dt = the EMPL.term_dt</p> <p>ELSE</p> <p>THEN do not populate this field</p> <p>END IF</p>
user_separation_reasons	Comma separated values of the reasons for employee termination. This should match values defined in HUA.	N	<p>IF employee's EMPL.term_dt is not NULL</p> <p>THEN get the employee's Termination Reason codes (EMPLOYMENT_HISTORY.term_reason_cd)</p> <p>where the EMPLOYMENT_HISTORY.term_dt =</p>

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
			the EMPL.term_dt For each Termination Reason, get the Termination Reason Description (TERM_REASON.term_reason_desc) ELSE THEN do not populate this field END IF
user_original_email	Employee's external email address which will be used as the jobseeker's account.	N	IF employee's EMPL.term_dt is not NULL THEN populate with the employee's E-mail Address (EMPLOYMENT_HISTORY.personal_email_id) where the EMPLOYMENT_HISTORY.term_dt = the EMPL.term_dt ELSE THEN do not populate this field END IF
user_separation_comments	Any comments for employee being offboarded	N	IF employee's EMPL.term_dt is not NULL THEN populate with the employee's Termination Comments (EMPLOYMENT_HISTORY.term_comments) where the EMPLOYMENT_HISTORY.term_dt = the EMPL.term_dt

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
			ELSE THEN do not populate this field END IF
wizard_target_id	HUA_user_id of the recruiter who will complete the offboarding wizard for the user being terminated	N	blank
user_terminated	The employee's last working day. This populates the user separation date in Talent Management.	N	EMPL.last_day_dt

Note: Costpoint employees defined as subcontractors will not be in data.

Job Templates

Job Templates are optional data that provides Talent Management with the valid list of Job Templates in Costpoint that can be associated to new hires.

These Job Templates provide additional data defaulting capabilities when importing new hires into Costpoint.

Talent Management Destination	Field Description	Required (Y/N)	Costpoint Source
job_template_id	Costpoint job template ID	Y	H_POS_RQ_RQST.co mpany_id + “ ” H_POS_RQ_RQST.rq _no
job_template_name	Costpoint job template name	Y	Job Title Description: DETL_JOB_TITLES.d etl_job_desc where DETL_JOB_TITLES.d etl_job_cd = H_POS_RQ_RQST.de tl_job_cd IF the Manager Default Method in the

Talent Management Destination	Field Description	Required (Y/N)	Costpoint Source
			<p>Login Company's Configure Personnel Settings screen = 'HR Organization' (H_PER_ADM_SETT NGS.s_mgr_dft_mthd _cd = 'H' where H_PER_ADM_SETT NGS.company_id = <Login Company>) and H_POS_RQ_RQST.hr _org_id is not NULL Org = H_POS_RQ_RQST.hr _org_id ELSE Org = H_POS_RQ_RQST.or g_id END IF ELSE (IF client is not licensed for Costpoint HR) Job Title Description = H_POS_RQ_RQST.titl e_desc Org = H_POS_RQ_RQST.or g_id END IF Costpoint Job Template Name: Org + " " + Job Title Description</p>

Job Requisitions

Job Requisitions provide Talent Management with position requisition details that can be associated to new hires.

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
job_template_id	Costpoint job template ID	Y	H_POS_RQ_RQST.company_id + “ ” H_POS_RQ_RQST.rq_no
job_template_name	Costpoint job template name	N	<p>Job Title Description: DETL_JOB_TITLES.dctl_job_desc where DETL_JOB_TITLES.dctl_job_cd = H_POS_RQ_RQST.dctl_job_cd IF the Manager Default Method in the Login Company’s Configure Personnel Settings screen = ‘HR Organization’ (H_PER_ADM_SETTINGS.s_mgr_df t_mthd_cd = ‘H’ where H_PER_ADM_SETTINGS.company_ id = <Login Company>) and H_POS_RQ_RQST.hr_org_id is not NULL Org = H_POS_RQ_RQST.hr_org_id ELSE Org = H_POS_RQ_RQST.org_id END IF ELSE (IF client is not licensed for Costpoint HR) Job Title Description = H_POS_RQ_RQST.title_desc Org = H_POS_RQ_RQST.org_id END IF Costpoint Job Template Name: Org + “ ” + Job Title Description</p>
hires_needed	Number of people needed to fill the requisition	N	H_POS_RQ_RQST.no_openings

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
description	Job responsibilities	N	H_POS_RQ_RQST.job_response
job_code	Same code that is used within user's profile to indicate their job title (This must be unique)	Y	H_POS_RQ_RQST.dctl_job_cd DETL_JOB_TITLES.DETL_JOB_CD + "_COMPANY_" + company_id
location_code	Unique identifier for location	N	H_POS_RQ_RQST.lab_loc_cd
org_level_code	Same code that is used in user's file and Jobs file	N	H_POS_RQ_RQST.org_id Top Level (Company) Populate with "COMPANY_" + ORG.company_id Lower Level(s) - Organization Populate with the Organization's Name (ORG.org_id)
recruiter_id	The user ID for the recruiter	N	H_POS_RQ_RQST.rq_empl_id
job_type	Job type	N	H_POS_RQ_RQST.s_empl_type_cd HRsmart job_type = IF Costpoint Employee Type = 'R' THEN populate with 'Full-Time' ELSE IF Costpoint Employee Type = 'P' THEN populate with 'Part-Time' ELSE IF Costpoint Employee Type = 'T' THEN populate with 'Temporary' ELSE THEN send NULL value END IF
creator_id	User ID of the owner of the record	N	H_POS_RQ_RQST.rq_empl_id
hiring_manager	User ID of hiring manager	N	H_POS_RQ_RQST.rq_empl_id

Labor Locations

In Deltek Talent Management, labor locations are tied to companies.

The following table provides information on how Costpoint data is mapped to Talent Management.

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
location_name	Name of the location	Y	LAB_LOCATION.LAB_LOC_DESC
location_code	Unique code for that location	Y	LAB_LOCATION.LAB_LOC_CD + "_COMPANY_" + company_id
company_code	Company that is tied to the location	N	Default to LAB_LOCATION.COMPANY.company_ID if available, else if LAB_SETTINGS_CORP.dflt_company = Y use the LAB_SETTINGS.company_id for that record, else create a Labor Location record for each company ID in LAB_SETTINGS table. Format: Top Level (Company) Populate with "COMPANY_" + ORG.company_id
time_zone_code	Time zone	N	N/A
location_currency_code	Currency	N	N/A
location_address_one	Address line 1	N	LAB_LOCATION.ln_1_adr
location_address_two	Address line 1	N	LAB_LOCATION.ln_2_adr
location_address_three	Address line 1	N	LAB_LOCATION.ln_3_adr
location_city	Location city	N	LAB_LOCATION.city_name

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
state_abbreviation	State abbreviation	N	LAB_LOCATION.mail_state_dc
location_zip	Zip code	N	LAB_LOCATION.postal_cd
country_abbreviation	Two letter code for the country	Y	LAB_LOCATION.country_cd
location_phone	Phone	N	LAB_LOCATION.phone_id
Location_fax	Fax	N	LAB_LOCATION.fax_id
location_active	Active/inactive flag	N	LAB_LOCATION.active_fl
location_group_code	Code of the location group to be assigned to the location	N	N/A

Employee Skills

Employee Skills information consist of the list of skills linked to an employee.

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
user_skill_id	User skill ID used by Talent Management	Y	
user_skill_last_modified	This is part of the Talent Management key and will be inserted upon import	Y	N/A
user_skill_date_created	Date when the skill was transferred to Talent Management	N	
user_id	The HUA ID for the employee	N	Send the corresponding HUA ID (EMPL.hua_id) for the where H_EMPL_SKILLS.empl_id = EMPL.empl_id
skill_id	The skill ID from Costpoint	N	H_EMPL_SKILLS.skill_id

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
skill_level_id	This is a Talent Management field that is currently not in the Costpoint database.	N	NULL
skill_usage_id	This is a Talent Management field that is currently not in the Costpoint database.	N	NULL
skill_last_used_id	This is a Talent Management field that is currently not in the Costpoint database.	N	NULL
user_skill_endorsed	This is a Talent Management field that is currently not in the Costpoint database.	N	NULL
user_skill_valid_from	Date when the skill was acquired by the employee	N	If H_EMPL_SKILLS.acquisition_dt is not null then send the date. Else, insert NULL.

Skills

Skills data consists of skill codes and the associated descriptions maintained in Costpoint.

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
skill_cd	Skill ID	Y	SKILL.skill_id
skill_name	Skill description	Y	SKILL.skill_desc
skill_category_id	Skill category ID	Y	Default NULL
skill_approved	Date when the skill was approved	N	Default NULL
skill_approver	ID of person who approved the skill	N	Default NULL
skill_suggested_by	ID of person who suggested skill	N	Default NULL
skill_active	Active flag for skill	N	SKILL.active_fl
skill_cd	Skill code	N	

Project Team

Project Team data includes information for both the project and the employees assigned to the project.

Project Data

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
project_end_date	End date of a project	Y	PROJ.proj_end_dt
project_name	Name for a project	Y	PROJ.proj_name
project_start_date	Start date of a project	Y	PROJ.proj_start_dt
project_active	Active state of a project	N	PROJ.active_fl
project_code	Client's unique identifier for a project.	N	
project_description	Description of a project	N	
project_gains_valid_days	Valid day gains of a project	N	
project_id	Talent Management's unique identifier for a project.	N	PROJ.proj_id
project_url	URL of a project	N	

Project Members Data

Talent Management Destination	Description	Required (Y/N)	Costpoint Source
user_id	Talent Management's unique identifier of a user	N	EMPL.hua_id where EMPL.empl_id = PROJ_EMPL.empl_id
appraisal_id	Appraisal ID of a project.	N	
epm_360_id	EPM 360 ID of a project.	N	
project_code	Client's unique identifier for a project.	N	
project_id	DTM's unique identifier for a project.	N	PROJ_EMPL.proj_id

Talent Management to Costpoint Integration

The integration provides the ability to import new hires from Talent Management to Costpoint.

Costpoint will take the data provided by Talent Management and potentially populate fields in the following Costpoint tables:

- Employee Regular Timesheet Defaults (DFLT_REG_TS)
- Employee (EMPL)
- Employee Salary/Labor Info (EMPL_LAB_INFO)
- Employee Phone (EMPL_PHONE)
- Employee Tax (EMPL_TAX)
- Manage Employee Security Clearance (EMPL_SEC_CLR)
- Employee Skills (H_EMPL_SKILLS)
- Manage Job Templates (H_POS_RQ_RQST)
- Manage Job Templates Employee Subtask (H_POS_RQ_RQST_EMPL)

Besides the values coming directly from Talent Management, there are other fields which will default from other sources which can include the optional CP Job Template.

DFLT_REG_TS

The Timesheet Line Defaults (DFLT_REG_TS) table stores timesheet default values for the employee for Talent Management staging.

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
DFLT_REG_TS	ACCT_ID	Account ID	N	CP Job Template
DFLT_REG_TS	CHG_ORG_ID	Charge organization ID	N	req_department_code
DFLT_REG_TS	EMPL_ID	Employee ID	Y (if auto ID generation is not enabled)	user_employee_id
DFLT_REG_TS	GENL_LAB_CAT_CD	General labor category (GLC)	Y (if the Allow Edit of Timesheet Line GLC checkbox is not selected in the Configure Labor Settings screen.)	CP Job Template, Hardcoded
DFLT_REG_TS	LAB_LOC_CD	Labor location	N	CP Job Template

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
DFLT_REG_TS	MODIFIED_BY	ID of the user who last created or modified row	N	N/A
DFLT_REG_TS	PAY_TYPE	Pay type	N	CP Job Template, CP Company Default
DFLT_REG_TS	PROJ_ID	Project	N	CP Job Template
DFLT_REG_TS	REF_STRUC_1_ID	Reference number 1	N	CP Job Template
DFLT_REG_TS	REF_STRUC_2_ID	Reference number 2	N	CP Job Template
DFLT_REG_TS	ROWVERSION	System-assigned number to handle row concurrency	N	N/A
DFLT_REG_TS	TIME_STAMP	Date and time of row creation or last modification	N	N/A
DFLT_REG_TS	WORK_COMP_CD	Workers compensation code	Y (if Require Default Workers' Compensation Code is selected in the Login Company's Configure Labor Settings screen)	CP Job Template; CP Company Default

EMPL

The Employee (EMPL) table stores basic information about the employees.

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
EMPL	<CP Job Template ID>	CP job template	N	Custom Field
EMPL	ADJ_HIRE_DT	Adjusted hire date	N	N/A
EMPL	BADGE_GROUP	SFT badge group	Y (if Badge ID is specified)	CP Job Template

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
EMPL	BADGE_ID	SFT badge ID	Y (if Badge Group is specified)	CP Job Template
EMPL	BIRTH_CITY_NAME	City of birth	N	N/A
EMPL	BIRTH_COUNTRY_CD	Country of birth	N	N/A
EMPL	BIRTH_DT	Birth date	Y (if licensed for HR or Payroll)	user_date_of_birth
EMPL	BIRTH_MAIL_STATE_DC	State/province of birth	N	N/A
EMPL	BLIND_FL	Blind flag	N	N/A
EMPL	CITY_NAME	City name	N	user_city
EMPL	CLOCK_FL	SFT clock user	N	CP Job Template
EMPL	COMPANY_ID	Company ID	Y	req_company_code
EMPL	CONT_NAME_1	Contact name 1	N	ESS
EMPL	CONT_NAME_2	Contact name 2	N	ESS
EMPL	CONT_PHONE_1	Contact phone number 1	N	ESS
EMPL	CONT_PHONE_2	Contact phone number 2	N	ESS
EMPL	CONT_REL_1	Contact 1 - relationship to employee	N	ESS
EMPL	CONT_REL_2	Contact 2 - relationship to employee	N	ESS
EMPL	CONTRACTOR_FL	Subcontractor	N	CP Job Template
EMPL	COUNTRY_CD	Country code	Y (if a state/province is specified)	user_country_abbreviation
EMPL	COUNTY_NAME	County name	N	<Not used>
EMPL	DISABLED_FL	Disabled flag	N	"N"
EMPL	ELIG_AUTO_PAY_FL	Eligible For auto-pay flag	N	"N"

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
EMPL	EMAIL_ID	Email ID	N	N/A
EMPL	EMPL_ID	Employee ID	Y (if auto ID generation is not enabled)	user_employee_id
EMPL	EMPL_SOURCE_CD	Employee source	N	"TALENT MANAGEMENT"
EMPL	ESS_PIN_ID	ESS PIN ID	N	No (no longer used)
EMPL	FIRST_NAME	First name	Y	user_firstname
EMPL	HOME_EMAIL_ID	Home email address	N	user_email
EMPL	HRSMART_EXPORT_DT	Date and time the employee was last exported to SilkRoad	N	N/A
EMPL	HUA_ID	HUA user ID	N	user_id
EMPL	HUA_ID_ACTV_MAP_FL	Active HUA ID mapping	N	N/A
EMPL	LAST_DAY_DT	Last day worked	N	N/A
EMPL	LAST_FIRST_NAME	Employee name (Last/First/Mid)	Y	Calculated
EMPL	LAST_NAME	Last name	Y	user_lastname
EMPL	LAST_REVIEW_DT	Last review date	N	N/A
EMPL	LN_1_ADR	Address line 1	N	user_address_one
EMPL	LN_2_ADR	Address line 2	N	user_address_two
EMPL	LN_3_ADR	Address line 3	N	user_address_three
EMPL	LOCATOR_CD	Locator code	N	CP Job Template
EMPL	LOGIN_ID	SFT login ID	N	N/A
EMPL	LV_PD_CD	Leave cycle	Y	CP Job Template
EMPL	MAIL_STATE_DC	Mail state	Y (if country code is "USA")	user_state_abbreviation

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
EMPL	MARITAL_CD	Marital code	N	"U"
EMPL	MES_FL	Manufacturing execution	N	CP Job Template
EMPL	MGR_EMPL_ID	Manager	N	N/A
EMPL	MID_NAME	Middle Name	N	user_middlename
EMPL	MODIFIED_BY	ID of the user who last created or modified row	N	N/A
EMPL	MOS_REVIEW_NO	Months between Reviews	N	N/A
EMPL	NAME_PRFX_CD	Name prefix code	N	N/A
EMPL	NAME_SFX_CD	Name suffix code	N	N/A
EMPL	NEXT_REVIEW_DT	Next review date	N	N/A
EMPL	NOTES	Notes	N	N/A
EMPL	ORIG_HIRE_DT	Original hire date	Y	candidate_start_date
EMPL	PAY_PD_REG_HRS_NO	Pay period regular hours	N	N/A
EMPL	PIN_UPDATED_FL	ESS PIN updated flag (Y/N)	N	N/A
EMPL	PLANT_ID	Plant ID	N	CP Job Template
EMPL	POSTAL_CD	Postal code	N	user_zipcode
EMPL	PR_SERV_EMPL_ID	Payroll service employee ID	N	N/A
EMPL	PREF_NAME	Preferred name	N	N/A
EMPL	PRIR_NAME	Prior name	N	N/A
EMPL	ROWVERSION	System-assigned number to handle row concurrency	N	N/A
EMPL	S_EMPL_STATUSS_CD	Employee status code	Y	"ACT"
EMPL	S_ESS_COS_CD	ESS class of service code	N	N/A

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
EMPL	S_RACE_CD	Employee's race code	Y (if licensed for HR)	user_eeoc_race
EMPL	SEX_CD	Sex code	Y (if licensed for HR)	user_eeoc_gender
EMPL	SFT_FL	Shop floor time user	N	CP Job Template
EMPL	SPVSR_NAME	Supervisor name	N	CP Job Template
EMPL	SR_EXPORT_DT	Date and time the employee was last exported to SilkRoad	N	N/A
EMPL	SSN_ID	Social security number	Y	national_identifier or "999-99-9999"
EMPL	TAXBLE_ENTITY_ID	Taxable entity (Company ID)	Y	Custom Field
EMPL	TERM_DT	Termination date	N	N/A
EMPL	TIME_ENTRY_TYPE	Time entry type	N	CP Job Template, "PUNCHED"
EMPL	TIME_STAMP	Date and time of row creation or last modification	N	N/A
EMPL	TS_PD_CD	Timesheet period code	Y	CP Job Template
EMPL	TS_PD_REG_HRS_NO	Timesheet period regular hours	N	0
EMPL	UNION_EMPL_FL	Union employee flag (Y/N)	N	CP Job Template, "N"
EMPL	UNIT_AMT	Unit amount	N	0
EMPL	VET_RELEASE_DT	Active military duty discharge or release date	N	N/A
EMPL	VET_STATUS_A	Armed Forces Service medal veteran	N	user_eeoc_veteran
EMPL	VET_STATUS_D	Veteran status Disabled	N	user_eeoc_veteran

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
EMPL	VET_STATUS_O	Active wartime or campaign badge veteran (Other protected veteran)	N	user_eeoc_veteran
EMPL	VET_STATUS_R	Reservist	N	N/A
EMPL	VET_STATUS_S	Special disabled veteran	N	N/A
EMPL	VET_STATUS_V	Vietnam era veteran	N	N/A
EMPL	VISA_DT	Visa expiration date	N	N/A
EMPL	VISA_TYPE_CD	Visa type code	N	N/A
EMPL	VET_STATUS_NP	Not a protected veteran	N	user_eeoc_veteran
EMPL	VET_STATUS_RS	Recently separated veteran	N	user_eeoc_veteran
EMPL	VET_STATUS_DECLINED	Declined to provide a veteran status	N	N/A
EMPL	VET_STATUS_P	Protected veteran (declined to self-identify)	N	user_eeoc_veteran

EMPL_PHONE

The Employee Phone (EMPL_PHONE) table stores the phone number information of employees.

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
EMPL_PHONE	EMPL_ID	Employee ID	Y (if auto ID generation is not enabled)	user_employee_id
EMPL_PHONE	MODIFIED_BY	ID of the user who last created or modified row	N	N/A

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
EMPL_PHONE	PHONE_EXT_CD	Phone number	N	N/A
EMPL_PHONE	PHONE_ID	Phone number	Y (if record is initiated)	N/A
EMPL_PHONE	PHONE_TYPE_CD	Phone type	Y (if record is initiated)	phone_home, phone_work, phone_mobile, phone_pager, phone_fax, phone_data
EMPL_PHONE	ROWVERSION	System-assigned number to handle row concurrency	N	N/A
EMPL_PHONE	TIME_STAMP	Date and time of row creation or last modification	N	N/A
EMPL_PHONE	SEQ_NO	Sequence number	N	Calculated

EMPL_LAB_INFO

The Salary Information and History (EMPL_LAB_INFO) table stores the employee's labor information as well as salary amounts.

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
EMPL_LAB_INFO	AA_COMMENTS	Comments	N	N/A
EMPL_LAB_INFO	AFF_PLAN_CD	AA plan code	Y (if: <ul style="list-style-type: none"> ▪ Licensed for HR ▪ Employee is Part-Time or Regular 	CP Job Template, Taxable Entity/ Labor Location Default

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source

EMPL_TAX	WH_LOC2_CD	Withholding locality 2 code	N	N/A
EMPL_TAX	WH_LOC3_CD	Withholding locality 3 code	N	N/A
EMPL_TAX	WH_LOC4_CD	Withholding locality 4 code	N	N/A
EMPL_TAX	WH_LOC5_CD	Withholding locality 5 code	N	N/A
EMPL_TAX	WH_STATE_CD	Withholding state code	N	N/A

EMPL_SEC_CLR

The Manage Employee Security Clearances (EMPL_SEC_CLR) table stores information on the security statuses assigned to employees.

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
EMPL_SEC_CLR	AGENCY NAME	Issuing agency	Y	N/A
EMPL_SEC_CLR	EFFECTIVE_DT	Effective date	N	N/A
EMPL_SEC_CLR	EMPL_ID	Employee ID	Y	hua_user_id
		<p>Note: This is the Costpoint Employee ID linked to an active HUA_ID</p>		

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
		that is identical to the user_id from Talent Management.		
EMPL_SEC_CLR	EXPIRY_DT	Expiration date	N	N/A
EMPL_SEC_CLR	INVESTIGATE_BY	Investigation by	N	N/A
EMPL_SEC_CLR	INVESTIGATE_DT	Investigation date	N	N/A
EMPL_SEC_CLR	REINVESTIGATE_DT	Reinvestigation date	N	N/A
EMPL_SEC_CLR	RQUEST_DT	Requested date	N	N/A
EMPL_SEC_CLR	SEC_CLR_CD	Security clearance code	Y	N/A

H_EMPL_SKILLS

The Employee Skills (H_EMPL_SKILLS) table stores information on skills assigned to employees.

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
H_EMPL_SKILLS	ACQUISITION_DT	Skill acquisition date	N	hua_user_skill_valid_from
H_EMPL_SKILLS	EMPL_ID	Employee ID Note: This is the Costpoint Employee ID linked to an active HUA_ID that is identical to the user_id from Talent Management.	Y	user_id
H_EMPL_SKILLS	REF_DT	Reference date	N	N/A
H_EMPL_SKILLS	SKILL_ID	Skill ID	Y	skill_code

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
H_EMPL_SKILLS	SKILL_LV_CD	Skill level code	N	skill_level_cd

H_POS_RQ_RQST

The Manage Job Templates (H_POS_RQ_RQST) table stores numbers assigned to job requests templates as well as optional requisition information, such as the approval information, target date, and whether the job is a new position or fills a vacancy.

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
H_POS_RQ_RQ ST	REQ_NO	Requirement number	Y	N/A
H_POS_RQ_RQ ST	COMPANY_ID	Company ID	N	N/A
H_POS_RQ_RQ ST	APPRVL_EMPL_ID	Approver	N	N/A
H_POS_RQ_RQ ST	APPRVL_DT	Approval date	N	N/A
H_POS_RQ_RQ ST	EMPL_ID	Employee that filled the requisition	N	N/A
H_POS_RQ_RQ ST	S_APPRVL_STATUS_CD	Approval status	N	N/A
H_POS_RQ_RQ ST	MODIFIED_BY	ID of the user who last created or modified row	N	N/A
H_POS_RQ_RQ ST	TIME_STAMP	Date and time of row creation or last modification	N	N/A

H_POS_RQ_RQST_EMPL

The Manage Job Templates Employee Subtask (H_POS_RQ_RQST_EMPL) table stores employees assigned to the job requisition.

Costpoint Destination Table	Costpoint Destination Field	Costpoint Field Description	Required (Y/N)	Talent Management/ Default Source
H_POS_RQ_RQ ST_EMPL	REQ_NO	Requirement number	Y	N/A
H_POS_RQ_RQ ST_EMPL	COMPANY_ID	Company ID	N	N/A
H_POS_RQ_RQ ST_EMPL	EMPL_ID	Employee that filled the requisition	N	N/A
H_POS_RQ_RQ ST_EMPL	MODIFIED_BY	ID of the user who last created or modified row	N	N/A
H_POS_RQ_RQ ST_EMPL	TIME_STAMP	Date and time of row creation or last modification	N	N/A

Guidelines for Talent Management Users

This section contains guidelines for using and setting up data in Talent Management in order to successfully run the data integration process the between Costpoint and Talent Management systems.

Required Fields on Requisition Forms

The following fields are required to be on the requisition form and values are required to be selected.

- Job Classification*
- Exemption Status*
- Job Type*
- Taxable Entity

Note: *These fields also require specific values and are detailed in the “Drop-down Selection Values” section.

There will be another field on the requisition that is optional, labeled **CP Job Template ID**. If one is selected, then it will assist Costpoint in the defaulting of particular data needed when the new hire is created in Costpoint.

Allowed Drop-down Selection Values

The data must contain the corresponding values listed in this topic.

These values should be spelled exactly as specified in following table. These values may be configured by your Talent Management Consultant.

Data	Allowed Values
Job Classification	Salaried Hourly Salaried Fluctuating
Job Types	Full-Time Part-Time Temporary
Exemption Types	Exempt Non-Exempt

Once the values are entered, these fields should be hidden so that they cannot be modified by anyone. Once hidden, they will no longer show on the Select List Management page.

Salary

Costpoint requires the salary amount for the new hire; therefore, you must enter the amount at some point.

There are three areas in the system where this can be entered:

- When initiating an offer
- When hiring the individual via the Résumé/CV Dashboard
- In the Cost Per Hire screen via Recent Hires

Onboarding

You must use Onboarding. Many details that Costpoint needs are completed during Onboarding.

Some fields displayed in the Onboarding process are not required in the Enterprise system, but are required for Costpoint. Therefore, the following fields must be completed when a new hire is onboarded:

- Employee ID
- Date of Birth* (if using Costpoint HR)
- Country* (if State is collected)

Note: *These can be collected and required at any point during the application process.

Social Security Number

If you use Costpoint Human Resources (HR), the application requires the social security number of the new hire.

This information can be collected either during the account creation, application, or Onboarding processes. The field can be made required on either the job seeker's account creation form or the application.

Org Structure

Data initialization will populate the Org Structure in Talent Management.

The Org Level codes should not be modified under any circumstances.

Any changes done to the Names of the Org Levels will be overwritten by the integration because Costpoint is the master of the data. You must make changes to the Org Levels directly in Costpoint rather than in Talent Management. After updating the information in Costpoint, you must run an export to update Talent Management.

Users

You must perform edits to Employee data in Costpoint.

If you are editing data that is not part of the integration (fields identified above in both New Hires and Users), you can update the data in Enterprise.

Custom Fields

The following custom fields were added in Talent Management.

They should be added to the requisition form by either a Talent Management Consultant or by your Site Administrator.

Field	Details
Costpoint Job Template ID	<p>This field must be added to the Requisitions form.</p> <p>Do not add to Costpoint Job Template ID values directly in Talent Management. Instead, use the export mechanism in Costpoint to update the listing in Talent Management.</p>
Taxable Entity	<p>This field must be added to the Requisitions form and made required. If not, the integration will fail.</p> <p>You must enter the values manually in Talent Management. The values will not be imported from Costpoint.</p>

Monitoring the Status of Talent Management Integrations

You can monitor the status of data integrations between Costpoint and Deltek Talent Management through the View Interface Execution Status History screen and the Talent Management Integration Console screen.

Use the following screens to view information about the integration:

Screen	Description
View Interface Execution Status History	<p>This screen allows you to view the status of the following:</p> <ul style="list-style-type: none"> ▪ Importing Talent Management new hire employee-related information into Costpoint ▪ Exporting Costpoint employees, position requisitions, detail job titles, and organizations/HR organizations to Talent Management ▪ Import and export errors <p>The View Interface Execution Status History screen displays the following information for every integration instance:</p> <ul style="list-style-type: none"> ▪ Target System ▪ Plant ▪ Location ▪ Interface Name ▪ Last export start date/time ▪ Last successful export date/time ▪ Total of records sent (includes failed) ▪ Records failed ▪ Records sent successfully ▪ Time waited on Target System ▪ Total Run Time (sec)
Talent Management Integration Console	<p>This screen allows you to view the following:</p> <ul style="list-style-type: none"> ▪ The last time the integration was run for each data set ▪ Imported new hire employees

Screen	Description
	<ul style="list-style-type: none"> ▪ New hire employees that are waiting to be imported or have failed to be imported into Costpoint

View Status of All Data Integrations

You can view the status of Costpoint - Deltek Talent Management integrations on the View Interface Execution Status History screen.

To view the historical status information on integrations:

1. In Costpoint, navigate to **Administration » System Administration » System Administration Reports/Inquiries » View Interface Execution Status History** . The screen displays information on all your Costpoint integrations.
2. If you run integrations with multiple systems, click **Query**, enter **HRS MART** in the **Target System** field and then click **Find**. The screen lists information on Deltek Talent Management integrations only.

View the Latest Run of the Talent Management Integration

Use the Talent Management Integration Console screen to view when the transfer process was last run for a specific data set.

To view the time and date of the latest data transfer:

1. In Costpoint, click **People » Employee » Employee Interfaces » Talent Management Integration Console** .
2. Click **Refresh**.
3. On the Integration Info tab, view the time and date of the latest import/export of a particular data set.

View Pending New Hire Employees for Import

Use the Talent Management Integration Console screen to view new hire employee records that are waiting to be imported from Deltek Talent Management.

To view pending employee records for import:

1. In Costpoint, click **People » Employee » Employee Interfaces » Talent Management Integration Console**.
2. Click the View TM Pending Employees for Import tab.
3. Click **Refresh**. The tab lists the employee records that are waiting to be imported.
4. If necessary, click an employee record to view details on the TM Employee Details subtask and Failed TM Employee Import History.

The TM Employee Details subtask lists the fields and corresponding value from the employee's record of the new hire from Deltek Talent Management. The Failed TM Employee Import History subtask lists the instances when the employee record failed to import into Costpoint. It also displays the corresponding details of the failure.

View Imported New Hire Employees

Use the Talent Management Integration Console screen to view new hire employees that have been imported from Deltek Talent Management.

To view imported new hire employee records:

1. In Costpoint, click **People » Employee » Employee Interfaces » Talent Management Integration Console**.
2. Click the View Employee Import History tab.
The tab displays the list of employee records imported from Talent Management.
3. If necessary, click on a employee ID to view the employee's record on the Manage Employee Information screen.

Troubleshooting

If you encounter any issues with the integration process between Costpoint and Talent Management, you can check any errors and get more information about the issue.

Verify Talent Management Connection Information

When you encounter integration issues, use the Costpoint Configuration Utility to check the connection.

To verify the connection:

1. Open the Costpoint Configuration Utility.
2. Click Costpoint tab and then click the Talent Management tab.
3. Check if the existing connection settings are correct.
4. Click **Test** to check the connection.

A message that says "Connected" should display.

Check Errors on the View Interface Execution Status History Screen

Review import and export errors on the View Interface Execution Status History screen.

To check for integration errors:

1. In Costpoint, go to **Administration » System Administration » System Administration Reports/Inquiries » View Interface Execution Status History**.
2. Identify if errors occurred during the integration with Talent Management. Talent Management integrations have a value of **HRSMART** in the **Target System** field. The **Records failed** field will display the number of records that failed to transfer.
3. Click on the integration line with records that did not transfer and then click the Export/Import Errors subtask. The Export/Import Errors subtask subtask lists the records that failed for the selected integration.
4. For each row, click the note icon in the **Original Error** field to view the errors that caused the record not to be imported/exported. The release for the failure will be indicated in between `<MsgText>` `</MsgText>` tags. For example:

```
<MsgText><![CDATA [  
A Labor Location must be specified when an |AFF_PLAN_CD| is  
assigned to the Employee.  
]]></MsgText>
```

Issue	Solution
<p>Accrued Salaries Acct/IC Tracking Level Org Combination not found in Organization/Account Table</p>	<p>This error displays in Costpoint. If you encounter this error, you must link the organization (or top organization) and accrued account on the Link Accounts/Organizations screen.</p> <div style="border: 1px solid blue; padding: 5px; margin-top: 10px;"> <p>Note: The accrued salaries account comes from the Configure Labor Settings screen.</p> </div>
<p> ORG_ID can not be at a higher level than the Inter-Company Tracking level</p>	<p>This error displays in Costpoint. If you encounter this error, you need to:</p> <ul style="list-style-type: none"> ▪ Ensure that the organization's number of levels and balance sheet levels are equal. Complete the following steps: <ol style="list-style-type: none"> 1. In Costpoint, click Accounting » General Ledger » Organizations » Manage Organization Structures. 2. Query the top level organization for the organization that you use and then ensure that the values in the No of Levels field and Balance Sheet Level field are equal. 3. Click People » Employee » Employee Interfaces » Transfer Talent Management Data and run the import process. ▪ Ensure that the organization assigned in the Requisition (not User Management) in Talent Management is the same level.
<p>An error has occurred saving the file</p>	<p>The ftproot and/or the ftp directory of the client needs to have the correct write permission in order to have a successful response for this particular API (transfer_file). In this case, for the www-data group it should have 775 (drwxrwxr-x) permission.</p>
<p>New Hire Import API request returns results but the Costpoint Import does not show anything after running (For example, There are no logs in View Interface Execution Status History) screen or no log that the integration ever ran.)</p>	<ol style="list-style-type: none"> 1. Check the log file in Costpoint (For example, c:\Deltek\Costpoint\81\logs). 2. Locate the error that refer to failure in retrieving SSN. Note that if even one of the employees have invalid SSN (or SSN was not retrieved), the import will not display the log of the run in the View Interface Execution Status History screen. 3. Reset the Bastion Setup. 4. Reenter the SSN of all employees being transferred by the New Hire Import process by editing the user profile in the User Management of Talent Management.

Issue	Solution
SSN is always set to 999-999-999 when importing from DTM	<p>If you encounter this error, you need to:</p> <ul style="list-style-type: none"> ▪ Setup Bastion properly. ▪ Configure Talent Management to collect National Identifiers for Internal Employee. Complete the following steps: <ol style="list-style-type: none"> 1. In Talent Management, click  on the toolbar to display the Administration menu. 2. Under Global Settings » System Administration, click Page Option. 3. Click the Core tab and then under the Internal Employee, click . 4. Under the National Identifier Collection section, configure the rules for the user.
Data not exported to Talent Management sites and no import control reports received.	<p>Collective tasks may not running. To check the tasks, complete the following steps:</p> <ol style="list-style-type: none"> 1. Go to collective site and check Current Task Queue. 2. If the Costpoint tasks are in Queued status, activate the DaemonWatcher.php.
Job Code Not Syncing Correctly	<p>Check to see if there are duplicate job titles and if the codes for those titles on the file do not have JOBCODE_COMPANY_1.</p>
No Collective task is getting queued	<p>When this issue occurs, the Costpoint log file returns the following error:</p> <pre data-bbox="613 1297 1349 1822"> -----REQUEST----- <request><auth_token>*****</ auth_token><function_name>transfer_file</ function_name><soa_version>2</ soa_version><language>en</ language><data><file_stream><!--base64 decoded data--> location_name,location_code,company_code,locat ion_address_one,location_address_two,location_ address_three,location_city,state_abbreviation ,location_zip,country_abbreviation,location_ph one,location_fax,location_active =====RESPONSE===== <?xml version="1.0"?> <response><soa_error_id>21.0.0.5</ soa_error_id><soa_message>Filename couldn't be generated.
