

# Deltek Costpoint Hot Fix Readme

**Release Date: November 27, 2018**

## New Application for Failed Posting

Reverse Failed Posting is a new application, located in System Administration Utilities, that enables you to reverse a failed posting. Reversal is available for the following postings:

- Post Cash Disbursements (APPPSTCD)
- Post Vouchers (APPPOSTV)
- Post Journal Entries (GLPJE)
- Post Cash Receipts (ARPCR)

Some conditions, including completed postings, cannot be reversed. These conditions include, but are not limited to:

- Any posting that has reached a point where the remaining steps involve clearing work tables, clearing POST\_SEMAPHORE, or the final update to the POSTING table.
- When there is no entry recording that the posting has started.
- When there are missing entries in the POST\_SEMAPHORE table.
- When a duplicate posting has been found in the General Ledger.

When executed, the Reverse Failed Posting utility logs the steps as they run. The log includes the ID of the user who is running the utility, the timestamp, and screen parameters.

**Note:** You should contact Customer Care before using the utility.

**Note:** This process will reverse changes to most tables as the result of a failed posting. This process will not reverse the changes made to FS\_SUM, REF\_SUM or LAB\_HS. Use the associated Financial Statement Summary Balances (GLPUPFS), Update Reference Summary Balances (GLPUPRS), and Rebuild Labor History (PJPULAB) toolkits to fix these tables.

## System Requirements

This enhancement requires the following:

- PATCH3527
- Cp711\_sys\_044.zip
- Cp711\_syprvpst\_001.zip

More information about this release is on the following page.

## Custom Programs Affected

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Support Center at <https://deltek.custhelp.com> before you install the update.

## To Download the Hot Fix/Feature Update

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Support Center credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

## To Install the Hot Fix/Feature Update

Refer to the installation instructions posted on Deltek's Support Center site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

## To Check to See if the Hot Fix is Installed

1. Open the application that was updated.
2. Click **Help » About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

## To Check to See if the Feature is Installed

1. Click **Help » About Costpoint** from the Costpoint toolbar.
2. Open the Features subtask and click the Feature that was just installed.
3. Open the Applications subtask. Check the list of applications and their corresponding application jars and see if they are correct and have been successfully deployed (highlighted in green).
4. Open the Patches subtask. Check the list of patches and see if they are correct and have been successfully deployed (highlighted in green).

**Note:** Most of the features installed have their corresponding patches, but not all.

---

## Appendix: For Additional Information

### Deltek Support Center

The Deltek Support Center is a support Web site for Deltek customers who purchase an Ongoing Support Plan (OSP).

The following are some of the many options that the Deltek Support Center provides:

- Search for product documentation, such as release notes, install guides, technical information, online help topics, and white papers
- Ask questions, exchange ideas, and share knowledge with other Deltek customers through the Deltek Support Center Community
- Access Cloud-specific documents and forums
- Download the latest versions of your Deltek products
- Search Deltek's knowledge base
- Submit a support case and check on its progress
- Transfer requested files to a Customer Care analyst
- Subscribe to Deltek communications about your products and services
- Receive alerts of new Deltek releases and hot fixes
- Initiate a Chat to submit a question to a Customer Care analyst online

**Attention:** For more information regarding Deltek Support Center, refer to the online help available from the Web site.

### Access Deltek Support Center

**To access the Deltek Support Center:**

1. Go to <https://deltek.custhelp.com>.
2. Enter your Deltek Support Center **Username** and **Password**.
3. Click **Login**.

**Note:** If you forget your username or password, you can click the **Need Help?** button on the login screen for help.

---
