

Deployment Date: 9/24/2018

Hot Fix: cp711_cmnlb_MMORGSECLIB_005.zip

MATERIALS/ENGINEERING CHANGE NOTICES/ECMECN/Maintain ECNs

[Deltek Defect Tracking Number:](#)

981998

[Issues Resolved:](#)

Description: Employee ID validated against organization security even when **Apply Org Security** was not selected in the linked organization security profile.

Customers Impacted: This defect affects Costpoint users.

Workaround Before Fix: Set Organization Security Profile linked to employee ID via the user ID by selecting the **Apply Org Security** check box.

Additional Notes: None.

MATERIALS/ENGINEERING CHANGE NOTICES/ECMPRAPP/EC Project Approvers

[Deltek Defect Tracking Number:](#)

990086

[Issues Resolved:](#)

Description: The logged-in user ID was not correctly validated against the project when organization security profile was not selected and organization security was not applied to the profile linked to the user ID.

Customers Impacted: This defect affects Costpoint users.

Workaround Before Fix: None.

Additional Notes: None.

MATERIALS/INVENTORY/INMISSU1/Enter Sales Order Inventory Issues

[Deltek Defect Tracking Number:](#)

982562

[Issues Resolved:](#)

Description: A separate application ID, INMISSU1, has been created for the Manage Sales Order Inventory Issues in the Inventory (IN) module. This change allows you to assign different organization security group/profile for the Manage Sales Order Inventory Issues in the IN module.

Customers Impacted: This change affects users who use organization security feature.

Workaround Before Fix: None.

Additional Notes: If you access the Manage Sales Order Inventory Issues screen via OEMISSU1 and your module rights are under the Sales Order Entry (OE) module, you now have to set up user rights and profiles for the Manage Sales Order Inventory Issues screen using the INMISSU1 application ID. However, license for both screens remain under the OE module.

MATERIALS/PRODUCTION CONTROL/PCMIAPEG/Inventory Abbreviation Peggings

Deltek Defect Tracking Number:

982567

Issues Resolved:

Description: A separate application ID, PCMIAPEG, has been created for Manage Inventory Abbreviation Peggings in the Production Control (PC) module. This change allows you to assign a different organization security group/profile for the Manage Inventory Abbreviation Peggings in the PC module.

Customers Impacted: This change affects users who use organization security feature.

Workaround Before Fix: None.

Additional Notes: If you access the Manage Inventory Abbreviation Peggings screen via MRMIAPEG and your module rights are under the Materials Requirement Planning (MR) module, you now have to set up user rights and profiles for the Manage Inventory Abbreviation Peggings screen using the PCMIAPEG application ID. However, license for both screens remain under the MR module.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

More Information:

If you have any questions, please contact Deltek support at <https://deltek.custhelp.com>.
