PEOPLE/LABOR/LDMCTIME/Enter Correcting Timesheets

Deltek Defect Tracking Number:

1080189

Issues Resolved:

Description: When you deleted timesheet lines with RECAST_LN column values of **G** (generated by the Recast Overtime Premium to Timesheet Lines utility) from the retrieved timesheet, the application did not change the RECAST_LN column value in the original timesheet line from **O** to a NULL value. As a result, when you reran the Recast Overtime Premium process to include the **D** (D-Correcting) type timesheet, the utility ignored the original timesheet line.

Customers Impacted: This defect affects Costpoint Labor users.

Workaround Before Fix: None.

Additional Notes: None.
