Overview 1

Defect Corrections 2

Overview

This document describes hot fix defect corrections that will be applied to the Cloud between August 17 - 25, 2020. See your Cloud portal page release date details.

Defect Corrections

Framework >> Runtime >> Server

Defect 1327970: On the Manage Warehouses (INMWHSE) screen, you could not save the transaction if you had hyphens or dashes in your legacy Location ID fields. This issue affects you if you use MR 7.1.6 or higher.

Purchasing >> Enter PO Vouchers

Defect 1332951: Vouchers sometimes showed multiple exchange rates, causing multiple functional amounts. Different exchange rates displayed in the Voucher History Inquiry screen between the PO Voucher Detail and Currency lines. Different functional amounts were then in the General Ledger. To avoid this, do not change the rates when lines are present, or if a change is needed, delete and reenter the lines.

Deltek is the leading global provider of enterprise software and information solutions for government contractors, professional services firms and other project- and people-based businesses. For decades, we have delivered actionable insight that empowers our customers to unlock their business potential. 20,000 organizations and millions of users in over 80 countries around the world rely on Deltek to research and identify opportunities, win new business, recruit and develop talent, optimize resources, streamline operations and deliver more profitable projects. Deltek – Know more. Do more.®
