Overview

Welcome to Deltek Costpoint 8.0.34 Release Notes. These release notes contain a summary of the following:

- Enhancements
- Software Issues Resolved
- Security Enhancements

These release notes address all of the modules associated with Deltek Costpoint 8.0.34, some of which your firm may not use. Skip the sections that do not apply to your implementation of Deltek Costpoint.

New Release Notes Format

Costpoint Release Notes are now delivered in HTML format and can be viewed at this link: https://help.deltek.com/product/Costpoint/8.0/ReleaseNotes. This web page contains links to the Release Notes for each release version as well as links to the Costpoint online help, Costpoint Information Center (CIC), and Costpoint Cloud Information Center (CCIC).

We will continue to provide PDFs for the next few releases as we transition to the new format.

If you have feedback or questions, please send an email to DeltekDocumentationFeedback@deltek.com.

Installation Notes

The MR installer reads all Costpoint systems selected. If a Time & Expense segment exists, the installer searches for the presence of a Time & Expense license in that Costpoint system, and lists any systems for which there is no Time & Expense license.

If a prompt displays, review the list and select the appropriate action:

- Using the Apply License utility in the Costpoint DB Wizard, apply a Time & Expense license to the Costpoint system(s) in the list for which the connected Time & Expense segment is not for a stand-alone, external connection that should have a Time & Expense license applied to it.

  Any stand-alone, external Time & Expense segments for which a Time & Expense license is not present, or for which the Time & Expense segment is for a Time & Expense 901 system, will not have the MR Time & Expense patches, SPs, or Data Dictionary files applied to them. These Time & Expense segments are marked as External TESS segments.

- If all the systems listed are actual stand-alone, external (non-licensed) Time & Expense segments and you want them converted to external segments without applying the MR to them, click **OK** to proceed.

If you are unsure, please contact Deltek Costpoint Technical Support.

Enhancements

This section includes summaries of the enhancements made to existing features in this release.

Regulatory

State

Florida Q2 2023 SUTA Electronic Filing

Costpoint's Software ID for Reemployment Tax XML has been updated to **HN3THwvdM4** as of March 13, 2023. The current Software ID, **GYaUXnCCLz**, will remain active for six months. The Create Quarterly SUTA Tax File screen was updated to support this change.

Michigan 2023 Tax Table Updates

Michigan's 2023 withholding guide was updated to show a lower flat tax rate. The tax rate for 2023 decreases from 4.25% to **4.05%**.

To support the state's requirements, this Costpoint release updates records effective 01/01/2023 on the following screens:

- Manage State Tax Tables
- Manage State Taxes

Attention: For more information, refer to: 446 Michigan Income Tax Withholding Guide.

Note: This update requires patch dbc_800_11114.

Utah 2023 Tax Table Updates

Utah's withholding guide was updated April 11 by the state tax commission, with the changes taking effect June 1, following a decrease to the state's income tax rate. The updates are:

- The tax rate decreases from 4.85% to 4.65%.
- The base allowance used in the formulas increases from $390 to $415 for single employees, and from $780 to $830 for married employees.
- The amounts subtracted from wages in the formulas increase from $7,774 to $8,371 for single employees, and from $15,548 to $16,742 for married employees.

Note: This update requires patch dbc_800_11116.

Installation

MR Installer

The 8.0.34 MR installer has been updated to include the latest quarterly patch release for WebLogic 12.2.1.4.

- April 2023 SPB - p35233446_122140_Generic.zip

Also, the Java Development Kit (JDK) has been upgraded to version 1.8.0_371 and is installed with the Costpoint 8.0.34 MR installer.

Software Issues Resolved

Descriptions of Software Issues

You will notice that the descriptions of some software defects contain extra information, including ways to work around the defects. For the most part, these issues were addressed before this release through hot fixes, and the additional information was developed to help you decide whether or not you needed to install the hot fixes.

When you install this release, you must install all fixes in the release; you cannot choose to install some and not others. Nevertheless, this additional information has been included in case you instituted some of the workarounds and can now stop using them, or you simply want more background information about the defect repairs.

Materials

Inventory » Import Inventory Transactions

Defect 1909796: When you added count data from the import inventory transactions interface and added new items with serial IDs that were the same but for different parts, the invt_whse_loc table incorrectly showed the same Serial_lot_key.

Material Requirements Planning » Update Material Requirements Plan

Defect 1914975: When you used MSS database, MRP did not plan low-level requirements even though substitutes were available.

Production Control » Manage Manufacturing Orders

Defect 1907712: When you tried to update the organization abbreviation on a project, you encountered an error.

Sales Order Entry » Manage Invoices

Defect 1915027: When you created an invoice with negative quantity, you encountered a rounding off error in Costpoint.

People

Payroll » Create Quarterly SUTA Tax File

Defect 1872564: When you created the SUTA tax file for West Virginia, the file reported gross wages instead of SUTA subject wages in S record position 50-63 (State QTR Total Gross Wages).

Defect 1873146: When you created the SUTA tax file for West Virginia, the file reported gross wages instead of SUTA subject wages in T record position 13-26 (State QTR Total Gross Wages).

Defect 1873157: When you created the SUTA tax file for West Virginia, the file reported gross wages instead of SUTA subject wages in F record position 26-40 (Total Gross Wages).

Defect 1920604: You were unable to submit the tax file for DC (District of Columbia), which used the new file format. The tax file for DC should still use the old file format.

Payroll » Manage Employee Earnings History

Defect 1921086: You received a critical error message when you tried to change the check date on the Manage Employee Earnings History screen. You were able to change the check date on a different record that is not a voided check for this same employee. The error message indicated the following: “VALIDATE_RS_OBJECT request failed.CHK_DT.”

Planning

Administration » Refresh Process

Defect 1924676: You encountered refresh issues when updating posted labor actuals.

New Business Budgeting » Import New Business Budgets from Excel

Defect 1914635: You encountered an error due to strings of invalid characters.

New Business Budgeting » New Business Budgets

Defect 1912196: You encountered persistent deadlock issues in new business budgets.

Project Budgeting » Import Budget/EACs from Excel

Defect 1910009: You encountered an error due to strings of invalid characters.

Project Budgeting » Pending Charges

Defect 1615345: The pending charges on blanket purchase orders (POs) displayed incorrect amounts.

Project Budgeting » Project Status

Defect 1730189: Purchase orders (POs) with **System Closed** status continued to display on the Pending Charges Detail window.

Defect 1897983: The values for accounts with SALCAP function code did not display in Project Status.

Projects

Billing » Create iRAPT Billing Files

Defect 1525581: When you ran this application for one or a range of billing cycles or project managers, a system error occurred.

As a workaround, run the screen using the other parameters, or select **All** in **Billing Cycles** and **Project Managers**.

Defect 1526274: When two companies both have bills with a **Selected** status and you ran this screen for one company, Costpoint also picked up bills from the other company when creating the iRAPT file.

As a workaround, change the status of the bills in the second company (ensure that nothing has the **Selected** status), and then rerun the Create iRAPT Billing Files process for the first company.

Time & Expense

Time » Manage/Approve Timesheets

Defect 1890990: When you used Period Ending as a query condition on filtered results, you received 0 records returned.

Defect 1915161: When you deleted a new timesheet record, you received a system error. This issue also affected another application.

Affected Applications	Defect No.
Timesheet	1915283

Security Enhancements

There are no security enhancements or security issues addressed in this release.

Appendix: For Additional Information

Deltek Support Center

The Deltek Support Center is a support web site for Deltek customers who purchase an Ongoing Support Plan (OSP).

The following are some of the many options that the Deltek Support Center provides:

- Search for product documentation, such as release notes, install guides, technical information, online help topics, and white papers
- Ask questions, exchange ideas, and share knowledge with other Deltek customers through the Deltek Support Center Community
- Access Cloud-specific documents and forums
- Download the latest versions of your Deltek products
- Search Deltek's knowledge base
- Submit a support case and check on its progress
- Transfer requested files to a Customer Care analyst
- Subscribe to Deltek communications about your products and services
- Receive alerts of new Deltek releases and hot fixes
- Initiate a Chat to submit a question to a Customer Care analyst online

Attention: For more information regarding Deltek Support Center, refer to the online help available from the web site.

Access Deltek Support Center

To access the Deltek Support Center:

1. Go to https://deltek.custhelp.com.
2. Enter your Deltek Support Center **Username** and **Password**.
3. Click **Login**.

Note: If you forget your username or password, you can click the **Need Help?** button on the login screen for help.

About Deltek
