Deployment Date: 3/27/2018

Hot Fix: cp711_cmnlib_RUMROUTLIB_002.zip

MATERIALS/ROUTINGS/RUMROUT/Maintain Routings

Deltek Defect Tracking Number:

881716

Issues Resolved:

Description: When you saved routing changes, **Operation Released** check box became inactive.
Customers Impacted: This defect affects Costpoint users.
Workaround Before Fix: None.
Additional Notes: When **Modify Released Routing** was selected on the ECN Corporate Settings of the Configure Engineering Change Notice Settings (ECMSET) screen, and you queried a released routing record, the following fields in the header section were still enabled: **Primary Routing**, **Description**, **MO Type**, and **Notes**. Although Costpoint displayed an error upon save (routings can only be released through ECN process), the error message displayed was inaccurate because the user was not trying to release the record but was trying to modify it.

System File Dependencies:

cp711_sys_033.zip

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
