Deltek Costpoint HotFix Readme

Released: February 19, 2016

Enhancements

Allow Human Resources (HR) Organization Managers to Cross Costpoint Companies

Costpoint now provides the ability to assign HR organizations managers and representatives that do not belong to the login company. Multiple Costpoint applications were enhanced to support this new feature. Other applications affected by this update will be released separately. This specific release includes the following updates to Costpoint screens:

Manage Employee Information (LDMEINFO)/Manage Employee Salary Information (LDMEHIS)

- The **HR Organization** field lookup results now come from the records on the Manage Managers/HR Reps by HR Organization screen from all companies provided that the HR organization is active.

- The **Manager** field now allows you to enter/select managers from other companies if **Allow HR Org Manager/Rep from Other Companies** check box is selected on Configure System Settings screen.

Configure System Settings (SYMSETNG)

A new check box, **Allow HR Org Manager/Rep from Other Companies**, on the Company Settings tab of this screen enables you to allow entry of HR organization managers or representatives that do not belong to the login company.

Patch Requirements

These enhancements require Costpoint 7.1.1 PATCH2850.

Application JAR Requirements

The following table shows the required application JAR version for each screen affected by this update:

Domain	Module	Application ID	Application Name	Application JAR
PE	EM	LDMEINFO	Manage Employee Information	cp711_ldmeinfo_009.jar
SC	SY	SYMSETNG	Configure System Settings	cp711_symsetng_005.jar

More information about this release is on the following page.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at http://support.deltek.com before you install the update.

To Download the HotFix Update:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, https://deltek.custhelp.com.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.

- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.

- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.

2. Click **Help** > **About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

More Information:

If you have any questions, please contact Deltek Customer Care at https://support.deltek.com.
