

Deltek Costpoint HotFix Readme

Release Date: August 28, 2017

Enhancement

Change License Restrictions for Accounts Payable Applications

In support of the future implementation of the Contract Management feature, some fields in the following applications are now available in the core offering of Costpoint:

- Manage Vendors (APMVEND)
- The Subcontractor Vendor Employee Approval fields in the Configure Vendor Settings (APMSETVN)
- Import Vendor Employees (APPUTLVE)
- Manage Vendor Employees (APMVEMPL)

The following fields on the Manage Vendor Employees (APMVEMPL) screen are only available when you apply the Subcontractor Management license:

Subcontractor Manager tab

- T & E Employee ID

Labor Information and History subtask

- Default Pay Type
- Default Invoice Rate
- Labor Location
- Work Schedule
- Timesheet Schedule
- Timesheet Class
- Expense Class

Default Transactional Invoice Rates subtask

- Transactional Currency
- Default Transactional Invoice Rate

Work Assignments subtask

- Work Assignment
- Status
- PO
- Release
- Change Order
- Vendor
- Customer
- Currency
- Total Amount

- Total Hours

Application JAR Requirements

The following table shows the required application JAR version for the screen affected by this update:

Domain	Module	Application ID	Application Name	Application File
AC	Accounts Payable	APMVEMPL	Manage Vendor Employees	cp711_apmvempl_003.zip
AC	Accounts Payable	APPUTLVE	Import Vendor Employees	cp711_appputlve_009.zip

In addition, cp711_sys_032.zip is required for this update.

More information about this release is on the following page.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at <http://support.deltek.com> before you install the update.

To Download the HotFix/Feature Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix/Feature Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help > About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

To Check to See if the Feature is Installed:

1. Click **Help > About Costpoint** from the Costpoint toolbar.
2. Open the Features subtask and click the Feature that was just installed.
3. Open the Applications subtask. Check the list of applications and their corresponding application jars and see if they are correct and have been successfully deployed (highlighted in green).
4. Open the Patches subtask. Check the list of patches and see if they are correct and have been successfully deployed (highlighted in green).

More Information:

If you have any questions, please contact Deltek Customer Care at <https://support.deltek.com>.
