

# Deltak Costpoint HotFix Readme

*Released: June 13, 2017*

## Tracking Shop Floor Time Transaction ID on Timesheet Lines

The ability to accept a numeric transaction ID from Shop Floor Time (SFT) XML was previously released through a hotfix for Bug 731586. As an enhancement to the previously implemented functionality, Costpoint now provides tracking of SFT's transaction ID. Timesheet reports were also enhanced to display SFT's transaction ID.

The following applications were updated for this enhancement:

### Create Retroactive Timesheet Adjustments (LDPRETRO)

The application uses the transaction ID (TS\_LN.TRANS\_ID) to populate TS\_LN\_HS\_RETRO.TRANS\_ID field.

### Post Timesheets (LDPLDJ)

The posting process includes the timesheet line **Transaction ID** (TS\_LN.TRANS\_ID) field to ensure that the field data is transferred to the timesheet history files (TS\_LN\_HS.TRANS\_ID).

### Print Timesheet History Report (LDRTHFR)

The report displays the **SFT Transaction ID** value on the **Line Type/Line Date/Line Source/SFT Trans ID** column.

### Print Timesheet Information Report by Account (LDRAEDIT)

The report displays the SFT Transaction ID value on the **Line Type/Line Date/Line Source/Flags/SFT Trans ID** column.

### Print Timesheet Information Report by Employee (LDRTEDIT)

The report displays the SFT Transaction ID value on the **Line Type/Line Date/Line Source/SFT Trans ID** column.

### Print Data Dictionary Report (SYRDD)

The report of the following tables include the information for the **Transaction ID** field:

- Timesheet Line (TS\_LN)
- Timesheet Line History (TS\_LN\_HS)
- Retroactive Timesheet (TS\_LN\_HS\_RETRO)

### View Timesheet History Inquiry (LDQTHF)

- A **Transaction ID** field displays the Transaction ID value from the Timesheet Line History (TS\_LN\_HS) table.
- The header **Query** function allows you to search records using **Transaction ID** (Inquiry Details) in the **Query Condition**.

## Patch Requirements

These enhancements require Costpoint 7.1.1 PATCH3194.

## Application JAR Requirements

The following table shows the required application JAR version for each screen affected by this update:

Domain	Module	Application ID	Application Name	Application File
People	Labor	LDPLDJ	Post Timesheets	cp711_ldpldj_010.zip
People	Labor	LDPRETRO	Create Retroactive Timesheet Adjustments	cp711_ldpretro_015.zip
People	Labor	LDQTHF	View Timesheet History Inquiry	cp711_ldqthf_004.zip
People	Labor	LDRAEDIT	Print Timesheet Information Report by Account	cp711_ldraedit_003.zip
People	Labor	LDRTEDIT	Print Timesheet Information Report by Employee	cp711_ldrtedit_005.zip
People	Labor	LDRTHFR	Print Timesheet History Report	cp711_ldrthfr_004.zip

More information about this release is on the following page.

## Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at <http://support.deltek.com> before you install the update.

## To Download the HotFix Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

## To Install the HotFix Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

## To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help > About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

## To Check to See if the Feature is Installed:

1. Click **Help > About Costpoint** from the Costpoint toolbar.
2. Open the Features subtask and click the Feature that was just installed.
3. Open the Applications subtask. Check the list of applications and their corresponding application jars and see if they are correct and have been successfully deployed (highlighted in green).
4. Open the Patches subtask. Check the list of patches and see if they are correct and have been successfully deployed (highlighted in green).

## More Information:

If you have any questions, please contact Deltek Customer Care at <https://support.deltek.com>.
