

# Deltek Vision® 7.x Timesheet Quick Reference Card

[www.deltek.com](http://www.deltek.com)

## Timesheet Tab

The Timesheet Hours tab displays the active employee, the labor period currently selected, and the status of the currently selected timesheet and labor period.

Special categories display in the initial rows of the grid. Use special categories to enter standard labor charges — such as vacation, sick time, or holiday leave.

Project, phase, task, labor code, and labor category data for special categories are predefined, so you can click in the appropriate **Day/Date** cell to enter your hours.

Use the fields in this grid to enter project, phase, task, labor code, and labor category data for your labor charges.

The row selector  displays to the left of the currently selected row.

You can enter as many lines as you need on each timesheet.

Vision automatically inserts a blank row after your last entry.

Click in a field and then click  to open the associated Lookup list to select data.

Labor periods are either Open or Closed. Timesheets can be In Progress, Submitted, Approved, or Posted.

**Sort** - Sort timesheet entries in ascending order by project, phase, task, and labor code.

**Insert** - Insert a new row below the currently selected row.

**Copy** - Copy the currently selected row to a new row. Hours and comments are not copied.

**Delete** - Delete the currently selected row.

**Save** - Save entries to the current timesheet.

**Open** - Access the Timesheet Period Selection dialog and open a timesheet for a different labor period.

**Submit** - Submit the current timesheet for processing.

**Approve** - Approve the current timesheet (administrators only).

**Employees** - Access the Select Employee Timesheet dialog (administrators only). This dialog allows you to review the status of employee timesheets and select timesheets to open.

**Copy** - Access the Timesheet Period Selection dialog and select an existing timesheet whose data (excluding hours) you want to copy to the current timesheet.

**Show** - View ratios comparing the distribution of hours on the current timesheet. Or, view benefit or planned hours earned and taken.

**Print** - Print a detailed or summarized timesheet report for the current timesheet.

**Option** - Specify whether you want Vision to print a detailed or summarized timesheet report each time you submit a timesheet.

**Help** - Open the Vision Timesheet Help.

The lower portion of the Timesheet Hours tab displays the following information:

- Project, phase, task, labor code, and client data for the currently selected row
- Hourly totals (regular and overtime) by row and by day
- Hourly totals for the entire labor period

If you are using the Line Item Approval feature, the timesheet displays the status of the currently selected labor charge. (line item).

Click in a **Day/Date** cell to enter hours.

You can enter regular hours directly in the **Day/Date** cell, or click in the **Day/Date** cell and then enter hours in the **Regular** field at the bottom of the timesheet.

To enter overtime hours, you must click in the **Day/Date** cell and then enter standard overtime hours in the **Ovt** field and secondary overtime hours in the **Ovt-2** field.

When you enter overtime hours, the associated **Day/Date** cell displays with gray shading.

For each entry, you can enter comments directly in the **Comment** field or select comments from a drop-down list.

For instructions on using the Start/End Time feature for entering hours and meals, refer to the online help. Start and end time fields are not displayed on this Quick Reference Card.
