

Deployment Date: 4/26/2018

Hot Fix: cp711_pcmmoiss_022.zip

MATERIALS/PRODUCTION CONTROL/PCMMOISS/Enter Manufacturing Order Issues

[Deltek Defect Tracking Number:](#)

895499

[Issues Resolved:](#)

Description: Costpoint allowed you to create two lines on a manufacturing order (MO) for the same serialized part ID, and allowed you to issue for disposition the same serial number to two separate lines.

Customers Impacted: This defect affects Costpoint and MES users.

Workaround Before Fix: None. However, you can reverse the transaction if you encounter this.

Additional Notes: When encountered, the inventory will be correct but the serial lot information will be incorrect. This could result to corrupt data, which is a Defense Federal Acquisition Regulation Supplement (DFARS) violation.

MATERIALS/PRODUCTION CONTROL/PCMMOISS/Enter Manufacturing Order Issues

[Deltek Defect Tracking Number:](#)

909527

[Issues Resolved:](#)

Description: When you queried the line first before you reversed the transaction, Costpoint displayed an incorrect lot number for a part.

Customers Impacted: This defect affects Costpoint users.

Workaround Before Fix: Reverse the entire transaction, and then delete the rows that should not be reversed.

Additional Notes: None.

MATERIALS/PRODUCTION CONTROL/PCMMOISS/Enter Manufacturing Order Issues

[Deltek Defect Tracking Number:](#)

915632

[Issues Resolved:](#)

Description: This application has been modified to suppress validation for negative issue exceeding issued quantity for standard manufacturing orders (MO). This same validation resulted in the following error message when you performed a part removal in Manufacturing Execution System (MES): "Negative Issue Quantity cannot exceed total issued quantity."

Customers Impacted: This defect affects you if you are an MES user that removes parts in manufacturing.

Workaround Before Fix: None.

Additional Notes: None.

MATERIALS/PRODUCTION CONTROL/PCMMOISS/Enter Manufacturing Order Issues

[Deltek Defect Tracking Number:](#)

915724

Issues Resolved:

Description: When you created and processed an XML to reverse manufacturing order (MO) issues, you received multiple errors in the web integration console (WIC).

Customers Impacted: This defect affects Costpoint users who use WIC.

Workaround Before Fix: Reverse the MO issue via the user interface (UI).

Additional Notes: None.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
