Hot Fix: cp711_inpmsxfr_009.zip

MATERIALS/INVENTORY/INPMSXFR/Perform Mass Inventory Transfers

Deltek Defect Tracking Number:

844004

Issues Resolved:

Description: On Create Mass Inventory Transfers (INPMSXFR) screen, you were able to process a transaction even though you used a saved parameter where the accounting period is closed/not available.

Customers Impacted: This defect affects you if you perform the same mass transfer to the same abbreviations or warehouse over and over.

Workaround Before Fix:

1. Remove the date in the Transaction Date field before saving the parameter.
2. Do not use backdated transaction dates.

Additional Notes: Application logic was also updated to display an error message if a user tries to process a transaction with an accounting period that is closed/not available.
