

Deltek Costpoint HotFix Readme

Released: December 26, 2017

Override Tax ID in the Company Identification in ACH Bank File

This enhancement accommodates the ACH bank file issue of Companies with subsidiaries that are under one taxable entity. Companies with this setup can use this enhancement if they want to distinguish the bank files for the main company's direct deposit and each of the subsidiaries direct deposit.

For this purpose, the Create ACH Bank File screen now allows you to override the Taxable Entity's tax ID and enter a value for Company Identification. The Create ACH Bank File screen contains the following new check box and field:

- **Override Tax ID in the Company Identification Field (Record) 5** — Select this check box to substitute the Tax ID in Record 5 with the specified Company Identification.
- **Company Identification** — Enter the Company Identification for Position 41 - 50 in the Company/Batch Header Record.

Application JAR Requirements

The following table shows the required application JAR version for each screen affected by this update:

| Domain | Module | Application ID | Application Name | Application File |
|--------|---------|----------------|----------------------|-----------------------|
| People | Payroll | PRPBANK | Create ACH Bank File | cp711_prpbank_004.zip |

More information about this release is on the following page.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Support Center at <https://deltek.custhelp.com> before you install the update.

To Download the HotFix Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Support Center credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix Update:

Refer to the installation instructions posted on the Deltek Support Center site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help » About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

To Check to See if the Feature is Installed:

1. Click **Help » About Costpoint** from the Costpoint toolbar.
2. Open the Features subtask and click the Feature that was just installed.
3. Open the Applications subtask. Check the list of applications and their corresponding application jars and see if they are correct and have been successfully deployed (highlighted in green).
4. Open the Patches subtask. Check the list of patches and see if they are correct and have been successfully deployed (highlighted in green).
