PJ/CTM/CTMCNTR/Manage Contracts

Deltek Defect Tracking Number:

874280

Issues Resolved:

Description: When you created a record on the Contract Teammates subtask, entered data for that record on the Vendor Employees subtask, and created another record in Contract Teammates for the same vendor ID but different PLC, data on the Vendor Employees subtask for the first record was copied over to the second record after saving.

Customers Impacted: After saving, delete the vendor employee data on the Vendor Employees subtask for the second record created in Contract Teammates.

Workaround Before Fix: None.

Additional Notes: This requires PATCH3367.
