

Deployment Date: 12/22/2015

Hot Fix: cp711_hbpoptof_003.zip

PEOPLE/BENEFITS/HBPOPTOF/Store Employee Benefit Options Offered

[Deltek Defect Tracking Number:](#)

565635

[Issues Resolved:](#)

Description: The application did not apply the correct default benefit package values. The process should determine benefit package defaults based on the following conditions:

- If options are offered to a full-time employee, the application should apply the benefit package defaulting logic or use the **Current Benefit Package** on the Manage Employee Benefit Elections screen.
- If options are offered to a full-time equivalent (FTE) employee, the benefit package should come from the Manage Full-Time Equivalent Eligibility (HBMFTE) screen record. If there is no HBMFTE benefit package, then the benefit package defaulting logic should be used which should treat the FTE employee as a full-time employee.
- If options are offered to a non-FTE/Part-Time or Temporary Employee, the benefit package defaulting logic should also be used.

Customers Impacted: This defect affects Costpoint Benefits users.

Workaround Before Fix: None.

Additional Notes: None.

[Custom Programs Affected:](#)

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

[To Download the Hot Fix:](#)

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
