Deployment Date: 11/26/2019

Hot Fix: cp711_aomcbbet_006.zip

OTHERS/PRODUCT INTERFACES/AOMCBBET/Maintain Cobra Budget Element Templates

Deltek Defect Tracking Number:

1196488

Issues Resolved:

Description: When you upgrade to Costpoint 7.1.1 System Jar 054, the mapping of the **Sample Cobra Project** field changes from the **Cobra Resource File** to the **Sample Cobra Project**. As a result, the **Sample Cobra Project** field no longer allows you to select resource files. This mapping change affects on-premise users and requires updating applicable configurations and testing of data.

The Cobra Resource File cannot be a separate field because the resource may come from multiple projects. Since this scenario may lead to miscalculations, the existing functionality of the **Sample Cobra Project** field will remain the same.

To aid in the identification of records that may require changes, a new **Resource File** column will be available in the lookup function of **Sample Cobra Project** field. If you used the Cobra Resource File prior to upgrading to Costpoint 7.1.1 System Jar 054, you will need to update **Sample Cobra Project** field with the correct Cobra project. Existing records do not need to be updated unless the Cobra Resource Detail table requires changes.

Customers Impacted: This defect affects only on-premise users of the Costpoint to Cobra Integration since the screen is not functional in the Cloud.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

cp711_aomcbbet_006.zip

System File Dependencies:

cp711_sys_059.zip

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
