## Overview

Welcome to Deltek Specpoint Release Notes for Building Product Manufacturers (Hotfix Release 1.0.2 through 1.1.2). These release notes are cumulative and contain a summary of the resolved software issues and enhancements for each hotfix release.

## Hotfix Release 1.1.2

**Released:** November 19, 2021

### Software Issues Resolved

This hotfix includes only resolved issues that affect A/E firm users.

## Hotfix Release 1.1.1

**Released:** November 12, 2021

### Software Issues Resolved

#### Show More Button

**Bug 25952:** The Product Listings page showed a No Results message after you scrolled down and clicked the **Show More** button multiple times. In addition, the **Show More (x of y)** button displayed an incorrect count of product listings and did not disable when the page loaded more listings.

## Hotfix Release 1.0.11

**Released:** November 3, 2021

### Software Issues Resolved

#### UI Responsiveness of the Public Specpoint Site

**Bug 25745:** In the public Specpoint site, the Product Listings page (which is equivalent to the Manage Listing page for BPM) had distorted images and text when you zoomed in to 150% text size while using 1920 × 1080 resolution.

#### Sorting of Recently Listed Product Listings

**Bug 25541:** When you opened the Product Listings page from the Recently Listed widget (by clicking **View All**) on the dashboard, this page displayed incorrectly sorted listings based on the default sorting criteria.

## Hotfix Release 1.0.10

**Released:** October 29, 2021

### Enhancements

#### Product Description Length

Product listings now have a maximum character limit of 10,000 (from 4,000).

On the Manage Listing page, the expanded description field accommodates the 10,000-character descriptions of product listings. In edit mode, the text area for the description accommodates the new character limit.

### Software Issues Resolved

#### Display the Product Description

**Bug 25810:** On the Manage Listing page, you encountered the following issues with lengthy product descriptions:

- The text area remained the same size and did not show the complete description.
- The text area expanded but not to the sufficient size to show the complete description.

## Hotfix Release 1.0.9

**Released:** October 26, 2021

### Software Issues Resolved

This hotfix includes only resolved issues that affect A/E firm and Deltek users.

## Hotfix Release 1.0.8

**Released:** October 22, 2021

### Software Issues Resolved

#### Description Length for Imported Products

**Bug 25711:** A number of product listings had descriptions that exceeded 10,000 characters. The descriptions of these product listings were trimmed to 10,000 characters.

The affected product listings were mostly imported listings from other Deltak Specification Solutions platform such as SpecAgent.

#### Auto-Generated Documents for Product Listings

**Bug 25583:** The date in the Product Specification Document header did not align with the date of the original MasterSpec document, on which the download document is based.

In addition, the automatically generated Product Specification Documents included the following sustainability information under *PART 1 – GENERAL* and *1.2 ACTION SUBMITTALS*: paragraph “*B. Sustainable Design Submittals:*”

## Hotfix Release 1.0.7

**Released:** October 18, 2021

### Software Issues Resolved

#### [Show More Product Listings](#)

**Bug 25399:** The Product Listings page reset to 200 records when you scrolled down and reached 2,000+ records. In addition, the **Show More (x of y)** button incorrectly reset to *(200 of y)* when it reached at least *(2,000 of y)*.

## Hotfix Release 1.0.6

**Released:** October 14, 2021

### Software Issues Resolved

#### Viewing the Product Listings Page

**Bug 25394:** When you navigated to the Product Listings page, you were unable to immediately use the Page Up, Page Down, Up, and Down keys to scroll and view the available product listings. Navigating by pressing these keys required that you first click the product listing area or the scroll bar on the page.

## Hotfix Release 1.0.5

**Released:** October 11, 2021

### Software Issues Resolved

#### Product Listings with Names that Include an Ampersand (&)

**Bug 25697:** The publicly available version of the Product Listings page did not include product listings that are under companies that have an ampersand (&) in their names. On the same page, you were unable to use the **Company** filter to search for product listings under companies that have an “&” in their names.

#### Save Button in the File/Image Upload Utility

**Bug 25430:** The buttons in the file/image upload utility became unavailable when you performed an action while an upload process was ongoing. This issue was limited to uploading a photo for your BPM's product listing on the Manage Listing page.

## Hotfix Release 1.0.4

**Released:** October 8, 2021

### Software Issues Resolved

#### Order of Product Cards Changes after Saving

**Bug 25624:** The Product Listings page did not maintain the order of product listing cards when you modified and saved information about a product that should not affect the order, such as the product description, images, and links.

## Hotfix Release 1.0.3

**Released:** October 5, 2021

### Software Issues Resolved

#### Recently Listed Product Listings

**Bug 25337:** The Product Listings page did not display any product listing cards when you opened it from the Recently Listed widget (by clicking **View All**) on the dashboard. The Product Listings page now correctly displays product listing cards with the following filters by default:

- **Listing Type:** Premium MasterSpec, Premium, and Premium Proprietary
- **Status:** Active

#### Same Product Names

**Bug 25503:** When you updated your BPM's product listing, you were unable to use the same product name for products with the same family but different product types. Specpoint also did not allow the use of the same product name for products from different manufacturers/companies.

## Hotfix Release 1.0.2

**Released:** October 1, 2021

### Software Issues Resolved

#### Sorting Product Listings by Family, Product Type, and Status

**Bugs 25409** and **25392**: You encountered the following issues when you configured the following filter and sorting criterion combinations:

Sorting Criterion	Filter	Issue
<ul style="list-style-type: none"><li>▪ <b>Family:</b> Ascending</li></ul>	<ul style="list-style-type: none"><li>▪ <b>More Filters » Status:</b> Active and Inactive</li></ul>	Missing family
<ul style="list-style-type: none"><li>▪ <b>Family:</b> Ascending or Descending</li></ul>	<ul style="list-style-type: none"><li>▪ <b>More Filters » Status:</b> Active and Inactive</li><li>▪ <b>Listing Type:</b> Premium</li></ul>	Incorrect sorting
<ul style="list-style-type: none"><li>▪ <b>Family:</b> Ascending or Descending</li><li>▪ <b>Product Type:</b> Ascending or Descending</li></ul>	<ul style="list-style-type: none"><li>▪ <b>More Filters » Status:</b> Active and Inactive</li></ul>	Incorrect sorting
<ul style="list-style-type: none"><li>▪ <b>Status:</b> Descending</li></ul>	<ul style="list-style-type: none"><li>▪ Any</li></ul>	Incorrect sorting

#### Visibility of Inactive Listings

**Bug 25540**: The Product Listings page displayed inactive product listings from other BPMs.

## Appendix: For Additional Information

### Deltek Support Center

The Deltek Support Center is a support Web site for Deltek customers who purchase an Ongoing Support Plan (OSP).

The following are some of the many options that the Deltek Support Center provides:

- Search for product documentation, such as release notes, install guides, technical information, online help topics, and white papers
- Ask questions, exchange ideas, and share knowledge with other Deltek customers through the Deltek Support Center Community
- Access Cloud-specific documents and forums
- Download the latest versions of your Deltek products
- Search Deltek's knowledge base
- Submit a support case and check on its progress
- Transfer requested files to a Customer Care analyst
- Subscribe to Deltek communications about your products and services
- Receive alerts of new Deltek releases and hot fixes
- Initiate a Chat to submit a question to a Customer Care analyst online

**Attention:** For more information regarding Deltek Support Center, refer to the online help available from the Web site.

### Access Deltek Support Center

**To access the Deltek Support Center:**

1. Go to <https://deltek.custhelp.com>.
2. Enter your Deltek Support Center **Username** and **Password**.
3. Click **Login**.

**Note:** If you forget your username or password, you can click the **Need Help?** button on the login screen for help.

## Available Documentation for this Release

The following table lists the Deltek documentation available for this release. Except where noted, all the user guides and quick reference guides listed in this table are available for download from the Deltek Support Center.

Document Name	Description
Deltek Specpoint 1.0 Release Notes for BPM Users	These release notes contain a summary of the key features for the first release of Specpoint.
Deltek Specpoint Help for BPM Users	This guide contains descriptions of and procedural information about features included in Specpoint.  You can access this guide from Specpoint's help menu.
Deltek Specpoint SaaS Administrator Guide	This guide contains descriptions of and procedural information about features that are available for administrators who are responsible for the initial activation and ongoing management of Specpoint.

---
