

**Deployment Date: 3/17/2019**

**Hot Fix: cp711\_pcrshrt\_006.zip**

## **MATERIALS/PRODUCTION CONTROL/PCRSHRT/Print Component Shortage Report**

Deltek Defect Tracking Number:

1067084

Issues Resolved:

**Description:** If the build part ID of the manufacturing orders (included from the select statement) is linked to large number or security group, and the bills of material (BOMs) have insufficient or no available inventory, the MO record was duplicated by the number of security code linked to it and then multiplied by the number of requisitions, POs, and MOs linked to the component parts. This caused the report to lock up the user's screen, so it is not cancelled but ended up needing a hard shutdown through the Task Manager.

**Customers Impacted:** This defect affects you if you use Print Manufacturing Order Component Shortage Report in Costpoint.

**Workaround Before Fix:** None.

**Additional Notes:** None.

System File Dependencies:

cp711\_sys\_041.zip

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
