

**Deployment Date: 7/7/2017**

**Hot Fix: cp711\_aprck\_012.zip**

**ACCOUNTING/ACCOUNTS PAYABLE/APRCK/Print\_Void Checks**

Deltek Defect Tracking Number:

816966

Issues Resolved:

**Description:** The Accounts Payable advices with amounts that were over the threshold could not be printed.

**Customers Impacted:** This defect affects you if you print checks in Costpoint.

**Workaround Before Fix:** Record the payment as a manual check.

**Additional Notes:** You should be allowed to print Accounts Payable check advices that are over the amount threshold. The limit 99,999,999.99 is set so payment amounts will not overflow and cause alignment issues. The limit should be removed for advices for Blank Laser, Z-Fold Laser, and Pre-printed Laser. If the advices are printed, there should also be a notice that uncorrectable alignment issues may exist for checks with amounts over 99,999,999.99.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
