# Deltek Costpoint HotFix Readme

Release Date: May 30, 2018

New Contracts Domain: Menu Change

The Contract Management module previously under the Projects domain is now a separate Contracts domain within Costpoint. This enhancement gives the Contract Management solution more visibility and also allows you to quickly navigate to the Contract Management solution.

New modules and application groups have been created to support this update. Eleven applications have been moved to the new Opportunities, Contracts, and Resources modules, while the rest of the screens remain in the Contract Management Controls module.

The image below displays the Contracts domain on the Navigation screen. The table that follows lists the modules, application groups, and applications available in this domain, listed in order as they display on the UI.

Module	Application Group	Application
Opportunities	Opportunities	Manage Opportunities
	Organizational Conflict of Interest (OCI)	Manage Organizational Conflict of Interest (OCI)
	Opportunities Interfaces	Import GovWin IQ Data
Contracts	Contracts	Manage Contracts
	Subcontracts	Manage Subcontracts
	Subcontracts Reports and Inquiries	View Subcontract Inquiry

Patch and System JAR Requirements

This enhancement requires the following:

- Costpoint 7.1.1 System JAR 041 (cp711_sys_041.zip)
- PATCH5116
- PATCH7148

More information about this release is on the following page.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Support Center at https://deltek.custhelp.com before you install the update.

To Download the HotFix/Feature Update:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Support Center credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix/Feature Update:

Refer to the installation instructions posted on Deltek's Support Center site, https://deltek.custhelp.com.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.

- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.

- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.

2. Click **Help** > **About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

To Check to See if the Feature is Installed:

1. Click **Help** > **About Costpoint** from the Costpoint toolbar.

2. Open the Features subtask and click the Feature that was just installed.

3. Open the Applications subtask. Check the list of applications and their corresponding application jars and see if they are correct and have been successfully deployed (highlighted in green).

4. Open the PATCHes subtask. Check the list of patches and see if they are correct and have been successfully deployed (highlighted in green).

More Information:

If you have any questions, please contact Deltek Support Center at https://deltek.custhelp.com.
