Standard Costing

This feature enables you to provide users the ability to use standard costing methods for inventory valuation. Prior to this feature, only average actual costing method is available in Cosptoint.

Standard costing enhancement features the following:

- New secure standard costing tables for item standard cost and project item standard cost
- New application to calculate future standard costs
- New application for purchase price variance (PPV)
- Ability to calculate and post variances for PPV and manufacturing costs (materials, labor, misc 1, misc 2, subcontractor) and corresponding overheads
- Ability to update item preprocessor for new cost tables
- Modified WIP variance process to include breakdowns for average actual and standard costing

This update requires the following patches:

- PATCH3282
- PATCH3298
