

Deltek Costpoint Hot Fix Readme

Release Date: October 17, 2018

Ability to Reprint Posted Standard Bills

Costpoint now allows users to print standard bills that have been previously posted. Prior to this feature, users would need to save each posted invoice to a file in order to retrieve that invoice to reprint. The process gets even more challenging when computing and posting invoices in batches.

Now, you can select and reprint a specific standard invoice that has been previously posted. All standard printing options are available with this new functionality, including the ability to print Accounting Classification Reference Number (ACRN) invoices as well as supporting schedules. Note, however, that this applies only to standard invoices and not to other invoice types. In addition, when printing posted invoices, the **Unselected Invoices** check box in the **Include** group box will be disabled on the Print Standard Bills screen.

Note: This feature will only be available for any bills posted in Costpoint after this feature has been added. This is because the Post Standard Bills application was modified to post to new tables that will be used when reprinting a posted standard bill.

Screen Updates

The following applications have been updated for this enhancement.

Print Standard Bills (BLRMBIL)

A new **Posting Status** group box has been added to this screen, with the following options:

- **Unposted Only** — Select this option to print unposted standard bills. If selected, the application will operate as in previous functionality, pulling data from the following tables:
 - BILL_EDIT_DETL
 - BILL_EDIT_INVC_HDR
 - BILLING_SUM
- **Posted Only** — Select this option to reprint standard bills that have already been posted. If selected, the **Unselected Invoices** check box becomes cleared and disabled. In addition, the application pulls data from the new cumulative tables:
 - **BILL_EDIT_DETL_CUM** — This is a copy of the BILL_EDIT_DETL table at the time of the bill posting.
 - **BILL_EDIT_HDR_CUM** — This is a copy of the BILL_EDIT_INVC_HDR table at the time of the bill posting.

- **PROJ_ACRN_DETL_CUM** — This is a copy of the PROJ_ACRN_DETL table at the time of the bill posting.
- **PROJ_BILL_ACRN_CUM** — This is a copy of the PROJ_BILL_ACRN table at the time of the bill posting.

Costpoint uses the billing format assigned to the project in determining if the current and/or cumulative columns are printed.

For both options, you can limit which bills are printed (for example, by projects, billing groups, or billing cycles) using the **Selection Ranges** group box. You can also select to print one or a range of invoices by entering the invoice number(s) in the **Invoices Start** and/or **End** fields.

Post Standard Bills (BLPGEN)

This application has been modified to update the following cumulative tables when standard bills are posted:

- BILL_EDIT_DETL_CUM
- BILL_EDIT_HDR_CUM
- PROJ_ACRN_DETL_CUM
- PROJ_BILL_ACRN_CUM

Rows associated with a reversed invoice will be deleted from the same cumulative tables when the reversed invoice is posted.

System Requirements

This enhancement requires the following:

- PATCH3516

Application JAR Requirements

The following table lists the Costpoint 7.1.1 screens affected by this update. It includes the required JAR version for each application, if applicable.

Domain	Module	Application ID	Application Name	Application File
Projects	Billing	BLRMBIL	Print Standard Bills	cp711_blrmbil_023.zip
Projects	Billing	BLPGEN	Post Standard Bills	cp711_blpgen_012.zip

More information about this release is on the following page.

Custom Programs Affected

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Support Center at <https://deltek.custhelp.com> before you install the update.

To Download the Hot Fix/Feature Update

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Support Center credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the Hot Fix/Feature Update

Refer to the installation instructions posted on Deltek's Support Center site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the Hot Fix is Installed

1. Open the application that was updated.
2. Click **Help » About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

To Check to See if the Feature is Installed

1. Click **Help » About Costpoint** from the Costpoint toolbar.
2. Open the Features subtask and click the Feature that was just installed.
3. Open the Applications subtask. Check the list of applications and their corresponding application jars and see if they are correct and have been successfully deployed (highlighted in green).
4. Open the Patches subtask. Check the list of patches and see if they are correct and have been successfully deployed (highlighted in green).

Note: Most of the features installed have their corresponding patches, but not all.

Appendix: For Additional Information

Deltek Support Center

The Deltek Support Center is a support Web site for Deltek customers who purchase an Ongoing Support Plan (OSP).

The following are some of the many options that the Deltek Support Center provides:

- Search for product documentation, such as release notes, install guides, technical information, online help topics, and white papers
- Ask questions, exchange ideas, and share knowledge with other Deltek customers through the Deltek Support Center Community
- Access Cloud-specific documents and forums
- Download the latest versions of your Deltek products
- Search Deltek's knowledge base
- Submit a support case and check on its progress
- Transfer requested files to a Customer Care analyst
- Subscribe to Deltek communications about your products and services
- Receive alerts of new Deltek releases and hot fixes
- Initiate a Chat to submit a question to a Customer Care analyst online

Attention: For more information regarding Deltek Support Center, refer to the online help available from the Web site.

Access Deltek Support Center

To access the Deltek Support Center:

1. Go to <https://deltek.custhelp.com>.
2. Enter your Deltek Support Center **Username** and **Password**.
3. Click **Login**.

Note: If you forget your username or password, you can click the **Need Help?** button on the login screen for help.
