## Overview

The ComputerEase 22.1 Cumulative Update Release Notes includes all the new features, enhancements, and software issues resolved that were made in ComputerEase 22.1.1 through 22.1.6.

## Pre-Installation Information

If you are running ComputerEase live, stop and restart the service from your server after updating.

## ComputerEase 22.1.6 Updates

**Released:** August 17, 2022

### Software Issues Resolved

This section includes software issues resolved in this release for Bill & Pay customers.

#### Customer and Invoice Number Error for Importing Payments

Defect 1730201

**Description:** When you attempted to import a payment with a customer number with HTML escape characters such as "&", "<", and ">", the payment was not imported. In addition, when you attempted to import a payment with an invoice number with HTML escape characters, the payment was imported but not applied to the invoice.

# ComputerEase 22.1.5 Updates

**Released:** August 11, 2022

## Software Issues Resolved

This section includes software issues resolved in this release.

### Attachments Window Error for Enter a New Invoice or Edit an Invoice

Defect 1721192

**Description:** When you closed the Attachments window after clicking **Add Link** or **Add Copy** on **Accounts Payable » Enter a New Invoice** or **Edit an Invoice**, ComputerEase crashed and generated a crash log.

### ComputerEase Shutdown for Deleting Data on General Ledger

Defect 1723873

**Description:** When you deleted data on **General Ledger » Delete Old Data**, ComputerEase shut down.

### Gmail Authentication Dialog Box Error of Address Book Import for Email Configuration

Defect 1721272

**Description:** When you clicked **Import » Import from Gmail** on the Address Book window, there was no Gmail authentication dialog box for you to enter the authentication code you received. You can access the Address Book window when you click **Configure » Configure Sending Email**, and then click **Address Book** on the Email Setup window.

### Slow Nvoicepay Vendor Export for Large Amounts of Data

Defect 1723071

**Description:** When you created a report using large amounts of data on **Accounts Payable » Reports » Nvoicepay Vendor Export**, the report was extremely slow to populate.

### Slow Vendor Master List w/YTD Qtool report for Large Amounts of Data

Defect 1723074

**Description:** When you created a report using large amounts of data on **Qtool » Accounts Payable » Vendor Master List w/YTD**, the report was extremely slow to populate.

## ComputerEase 22.1.4 Updates

**Released:** July 21, 2022

### Software Issues Resolved

This section includes software issues resolved in this release.

#### Active Users Error for Qtool Report

Defect 1672015

**Description:** When you opened Qtool and left it open, and then clicked **File » Active Users**, all active users were not displayed.

#### Name and Employer Identification Number (EIN) Field Error on Form 941

Defect 1713980

**Description:** When you printed a Form 941, the **Name** field and **Employer Identification Number (EIN)** field were blank on pages 2 and 3. On the payment voucher section of the Form 941, the EIN was also blank.

# ComputerEase 22.1.3 Updates

Released: July 7, 2022

## Enhancements

This section includes enhancements in this release.

### Form 941 for June 2022

The Form 941 features in ComputerEase are now updated based on the revised Form 941 of June 2022 issued by the Internal Revenue Service (IRS).

### Idaho Tax Updates for June 2022

The June 2022 Idaho tax updates by the Idaho State Tax Commission are now applied in ComputerEase. This update includes new tables for the percentage computation method of withholding for payroll periods of single persons, including head of household, and married persons.

## Software Issues Resolved

This section includes software issues resolved in this release.

### Dates Field Error in Report Books

Defect 1701182

**Description:** When you created or edited a report on **Tasks » Work on Report Books » Report Books**, selecting a date using the ? icon in the **Dates** field resulted in an error based on the configured default date format in Windows.

### Invoice Upload Error for Nvoicepay

Defect 1699590

**Description:** On the Additional Settings tab of a vendor for Accounts Payable, one file per invoice was always uploaded to Nvoicepay whether the **One Invoice per Check** check box was selected or cleared.

### One Invoice per Check Setting Error for Nvoicepay

Defect 1700624

**Description:** When the vendor was set to pay using Nvoicepay, the **One Invoice per Check** check box setting did not save.

## ComputerEase 22.1.2 Updates

**Released:** June 27, 2022

### Software Issues Resolved

This section includes software issues resolved in this release.

#### Periods Field and Dates Field Error in QTool Reports

Defect 1696104

**Description:** When you clicked a report or **(None)** in QTool where a date or period is prompted, the **Periods** field and **Dates** field on the dialog box had the formula editor and did not accept a standard period and date, respectively.

## ComputerEase 22.1.1 Updates

**Released:** June 13, 2022

### Enhancements

This section includes enhancements in this release.

#### Minnesota Assessments for Payroll System

The Minnesota additional assessment and special assessment are now updated for 2022 in ComputerEase.

## Appendix: For Additional Information

If you need assistance installing, implementing, or using Deltek + ComputerEase, Deltek makes a wealth of information and expertise readily available to you.

### Deltek + ComputerEase Customer Corner

The Customer Corner is a support website for Deltek + ComputerEase customers who are current on their Enhancements and Maintenance Package.

The following are some of the many options that the Customer Corner provides:
