**Issues Resolved:**

**Description:** Subcontractor Invoices - The Post Vouchers application should have inserted the timesheet date in the Open Billing Detail.

**Customers Impacted:** This defect affects you if you post purchase order vouchers in Costpoint.

**Workaround Before Fix:** Set the effective date to the timesheet date when you create subcontractor invoices. In this way, the timesheet date will be reflected in the Open Billing Detail which will then be used to load Time and Material (T&M) rates.
