

**Deployment Date: 11/28/2018**

**Hot Fix: cp711\_ctmsbcntr\_012.zip; cp711\_patch3569\_001.zip**

### **CG/CN/CTMSBCNTR/Manage Subcontracts**

**Deltek Defect Tracking Number:**

1017951

**Issues Resolved:**

**Description:** Several changes have been made to the Manage Subcontracts screen with regards to how purchase orders (POs) are linked to subcontracts. Previously, you can enter purchase orders on the Purchase Orders tab of this screen to associate the POs with the subcontract. Now, the Purchase Orders tab is read-only and displays the POs associated with the subcontract through the **Subcontract ID** field on the Subcontract Information tab of the Manage Purchase Orders screen. A new subtask, Work Assignments, is also now available in Manage Subcontracts. This subtask displays the work assignments linked to the purchase order row selected on the Purchase Orders tab. On the Manage Work Assignments screen, a **Subcontract ID** field has been added to display the subcontract linked to the PO associated with the work assignment. The subcontract name displays to the right of this field. Both these fields are disabled and default from the subcontract ID and name associated with the PO ID linked to the work assignment.

**Customers Impacted:** These changes affect Costpoint users.

**Workaround Before Fix:** None.

**Additional Notes:** The SUBCNTR\_PO\_HDR table, used to store records entered on the Purchase Orders tab, has been removed. Any purchase orders that exist in the SUBCNTR\_PO\_HDR table will insert the subcontract ID into the PO\_HDR table in order to maintain the link between the PO and the subcontract. You must install PATCH3569 to successfully update the PO\_HDR table.

**Custom Programs Affected:**

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

**To Download the Hot Fix:**

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
