

Deployment Date: 4/1/2019

Hot Fix: cp711_hbpaped_018.zip

PEOPLE/PAYROLL/HBPAPDED/Mass Update Employee Package Deductions

[Deltek Defect Tracking Number:](#)

1014956

[Issues Resolved:](#)

Description: The application should ignore premium amounts of 0.00. If the employee premium is 0.00, the Update Employee Package Deductions application should not add or update an Employee Deduction record for that employee's benefit option. Also, if the employer premium is 0.00, the Update Employee Package Deductions application should not add or update an Employer Contribution record for that employee's benefit option. This reverses a portion of the fix done for a bug (949975) where the code was updated to process records with a rate of zero.

Customers Impacted: This defect affects Costpoint Payroll users who assign benefit plans to employees; but want to manually enter and maintain the employee deduction and/or Employee Contribution setup; and do not want the Update Employee Package Deductions application to alter the manually entered/maintained setup.

Workaround Before Fix: None.

Additional Notes: Please take note of the following:

- If the benefit plan is set up with a 0.00 employee premium amount, no updates will be made to the Employee Deductions records. Also, no new Employee Deductions records will be generated. Any new records or changes to those records will need to be manually entered in the Manage Employee Deductions screen.
- If the benefit plan is set up with a 0.00 employer premium amount, no updates will be made to the Employee Contributions records. Also, no new Employee Contributions records will be generated. Any new records or changes to those records will need to be manually entered in the Manage Employee Contributions screen.

PEOPLE/PAYROLL/HBPAPDED

[Deltek Defect Tracking Number:](#)

1061676

[Issues Resolved:](#)

Description: A "Divide by zero error encountered" error message displayed when the following conditions existed:

- An employee had an HSA election that with a start date and end date difference of less than a pay period.
- The employee's HSA election had a corresponding contribution.
- The number of pay periods remaining was zero.

Customers Impacted: This defect affects Costpoint Payroll users.

Workaround Before Fix: Fix the end date or delete the employee.

Additional Notes: None.

PEOPLE/PAYROLL/HBPAPDED/Mass Update Employee Package Deductions

[Deltek Defect Tracking Number:](#)

1064857

[Issues Resolved:](#)

Description: The Update Employee Package Deductions process changed the deduction ceiling to the limit that was set up on the Manage HSA Plan Year screen instead of the election amount in the employee record.

Customers Impacted: This defect affects Costpoint Benefits users.

Workaround Before Fix: None.

Additional Notes: None.

PEOPLE/PAYROLL/HBPAPDED/Mass Update Employee Package Deductions

Deltek Defect Tracking Number:

1076641

Issues Resolved:

Description: The deduction amount was incorrect when you had the following set up:

- The calculation was based on the check date.
- The plan year setup on the Manage Taxable Entity Settings screen had dates for the next year.
- The pay periods and corresponding check dates for that year were not yet set up in the Manage Pay Periods screen.

Customers Impacted: This defect affects Costpoint Payroll users.

Workaround Before Fix: Change the plan year dates on the Manage Taxable Entity Settings screen so that they reflect the current plan year, rather than the next plan year; or set up pay periods (with corresponding check dates) for the next year. However, if the number of checks differs in the current year and the next year, this could still result in erroneous results.

Additional Notes: None.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

More Information:

If you have any questions, please contact Deltek support at <https://deltek.custhelp.com>.
