### **MATERIALS/RECEIVING/RCQSTAT/PO Status Inquiry**

**Deltek Defect Tracking Number:**

982665

**Issues Resolved:**

**Description:** A separate application ID, RCQSTAT, has been created for View Purchase Order Status screen in the Receiving (RC) module. This change allows you to assign a different organization security group/profile for the View Purchase Order Status screen in the RC module.

**Customers Impacted:** This change affects users who use organization security feature.

**Workaround Before Fix:** None.

**Additional Notes:** If you access the View Purchase Order Status screen via POQSTAT and your module rights are under the PO module, you now have to set up user rights and profiles for the View Purchase Order Status screen using the RCQSTAT application ID. However, license for both screens remain under the PO module.
