### **PJ/SM/SMPINVC/Create Subcontractor Invoices**

**Deltek Defect Tracking Number:**

1172852

**Issues Resolved:**

**Description:** Costpoint allowed the charge line to exceed the PO line value even when the **Allow Charge line to exceed PO Line value** option selected was **Error** on the Manage Work Assignments screen.

**Customers Impacted:** This defect affects Costpoint users.

**Workaround Before Fix:** None.

**Additional Notes:** The logic of this application has been updated to consider the value of the new **Over to Unallow** check box added to Manage Work Assignments when creating subcontractor invoices. If the **Over to Unallow** check box is not selected when it is enabled, the amounts over the work assignment will not be invoiced but will display on an exception report that will print with the invoice.
