Hot Fix: cp711_aopessue_009.zip

OTHERS/PRODUCT INTERFACES/AOPESSUE/Activate Pending Benefit Elections

Deltek Defect Tracking Number:

907002

Issues Resolved:

Description: An error occurred when trying to activate a new election because the Benefit Elections Details table in the Manage Employee Benefit Elections (HBMEBELC) application had more than one future record with a Start Date before the End Date of the new election. In order for the dates to not overlap when activating the new election, Costpoint was updated to make the end date of the new election record equal to the day before the earliest existing election.

Customers Impacted: This enhancement affects Costpoint users.

Workaround Before Fix: None.

Additional Notes: None.

OTHERS/PRODUCT INTERFACES/AOPESSUE/Activate Pending Benefit Elections

Deltek Defect Tracking Number:

913572

Issues Resolved:

Description: The following message should be removed from the Activate Pending Elections Error Report: "Taxable Entity not found in the ESS Settings table." This validation applied to all taxable entities in the database whether or not they are assigned to the employees being processed. The taxable entities of each employee being processed will still be validated so there is no reason validated all taxable entities.

Customers Impacted: This defect affects Costpoint Employee Self Service users.

Workaround Before Fix: None.

Additional Notes: None.
