

Deployment Date: 12/2/2016

Hot Fix: cp711_pjmaltrp_001.zip

PJ/PJ/PJMAL TRP/Alternate Reporting

Deltek Defect Tracking Number:

531710

Issues Resolved:

Description: When you selected a second project in the **Projects** table window and then clicked the **Select** button, Costpoint superseded the first project you selected and did not create a new line in the **Selected Projects** table window. The following message was displayed: "trying to set context on row -59998 which is not on client and not in buffer!"

Customers Impacted: This defect affects Costpoint users.

Workaround Before Fix: Select the first project and save the record. Then select the second project and save the record.

Additional Notes: None.

PJ/PJ/PJMAL TRP/Alternate Reporting

Deltek Defect Tracking Number:

559418

Issues Resolved:

Description: Costpoint allowed you to create an alternate project report name with a dash (-) in the name, but you were not able to use that report name in Print Project Status Report.

Customers Impacted: This defect affects Costpoint users.

Workaround Before Fix: None.

Additional Notes: None.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
