

# Deltek Costpoint Hot Fix Readme

**Release Date: July 30, 2019**

## 2019 Hawaii SUTA Electronic Filing Update

The State of Hawaii launched the New Employer Web Application which employers can use for the following purposes:

- Accessing UI (unemployment insurance) account information such as tax rates and reporting history
- Reporting quarterly wage data and make contribution payments
- Requesting for direct deposit of refunds
- Completing online forms and more

The New Employer Web Application replaces the Hawaii Unemployment Insurance (HUI) Express - Quarterly Wage Reporting System (QWRS) which will be phased out. In line with this change, the Contribution Record Layout using fixed-length format for HUI Express online filing will no longer be valid and the New Employer Web Application will require a CSV file format.

To support the state requirements, the Create Quarterly SUTA Tax File (PRPSMM) application now has the ability to generate a CSV data file format that is valid for Hawaii's New Employer Web Application.
