

# Deltek Costpoint HotFix Readme

*Release Date: January 26, 2018*

## Role-Based Dashboards: Usability Enhancements for the Projects Approaching Funding Dashpart

Role-based dashboards available in Costpoint are continuously being updated to improve usability and the overall look of the dashboards.

In this release, the enhancements are for the Projects Approaching Funding dashpart, which is available on the Project Manager Dashboard and Organization Manager Dashboard. Changes include the following:

- The chart type (previously a stacked bar chart) has been changed such that the funding and revenue amounts are represented in separate bars. The chart legend now also displays **Funding** and **Revenue**.
- The chart displays the appropriate subperiod end date for the data being displayed, right-aligned on the top-right corner of the chart.
- The chart displays the X and Y axis titles. Previously, the Y axis displayed just the project name label, while the X axis displayed the amount without the currency. Now, the Y axis displays "Projects" as the axis title, and the X axis displays "US Dollars" along with (000) to reflect that the data is presented in thousands.

There are no changes on the parameters that define the dashpart (that is, the parameter fields on the Parameters tab for Projects Approaching Funding remain the same).

## System JAR Requirement

These enhancements require Costpoint 7.1.1 System JAR 037 (cp711\_sys\_037.zip).

## Known Issues

### Drill-Through Application Not Automatically Loading the Result Set

On the Labor Utilization chart of the Organization Manager Dashboard, clicking an employee ID link brings up the Utilization Analysis (COL1,BOL1,POL1) screen. This screen, however, does not automatically load the result set for the selected employee ID link. To display the utilization analysis information on this screen, you must click the **Execute** icon on the toolbar or press F3.

### Duplicate Tooltips

If you use Internet Explorer, duplicate tooltips may display when you hover over a bar or a bar segment on the following charts:

- **AR Aging and AR Current charts** — Available on all three dashboards
- **Aged Open Billing Detail and Current Open Billing Detail charts** — Available on all three dashboards
- **AP Aging and AP Current charts** — Available only on the Finance Manager Dashboard
- **Projects Approaching Funding chart** — Available only on the Project Manager Dashboard and Organization Manager Dashboard
- **Timesheet Status chart** — Available only on the Organization Manager Dashboard

## Viewing the Online Help

If you use Internet Explorer and the online help does not display correctly, you need to turn off Compatibility View for the browser. Click **Tools » Compatibility View settings**, and clear the **Display intranet sites in Compatibility View** check box. Then refresh the browser. Make sure you remove deltek.com (if listed) from the Websites you have added to Compatibility View list.

More information about this release is on the following page.

## Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Support Center at <https://deltek.custhelp.com> before you install the update.

## To Download the HotFix/Feature Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Support Center credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

## To Install the HotFix/Feature Update:

Refer to the installation instructions posted on Deltek's Support Center site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

## To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help > About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

## To Check to See if the Feature is Installed:

1. Click **Help > About Costpoint** from the Costpoint toolbar.
2. Open the Features subtask and click the Feature that was just installed.
3. Open the Applications subtask. Check the list of applications and their corresponding application jars and see if they are correct and have been successfully deployed (highlighted in green).
4. Open the PATCHes subtask. Check the list of patches and see if they are correct and have been successfully deployed (highlighted in green).

## More Information:

If you have any questions, please contact Deltek Support Center at <https://deltek.custhelp.com>.
