Enhancements

2015 Q3 August Tax Table Updates

Idaho Income Tax Withholding

Percentage-method withholding tables, effective retroactively to Jan. 1, 2015, were released by the state tax commission. Employers are not required to retroactively adjust withholding for the months before the withholding tables were released. The annual withholding allowance increases to **\$4,000** from \$3,950.

Michigan SUTA Limit

Effective third quarter of 2015, the unemployment-taxable wage base for Michigan employers decreases to **\$9,000** from \$9,500 according to the state Department of Talent and Economic Development. In addition, the department also stated that the amounts of unemployment tax paid on an employee's unemployment-taxable wages above \$9,000 for the first and second quarters of 2015 are not reimbursable because the wage base for all employers for those quarters still is \$9,500.
