1.5.2 Release Notes

These release notes topics contain a summary of features, enhancements, and software issues resolved made in ComputerEase Field 1.5.2.

Summary of Changes

Software Issues Resolved

The following is a list of software issues resolved:

- Job Data Changes Created User Time Entries Instead of Changing the Entry for Approval
- Geolocation Tracking Permission Not Saved After Reopening ComputerEase Field
- Timesheets Did Not Load in a Single Pay Period with 65 or More Timesheets
- Job Names in Approvals by Job were Sometimes Incorrect

Software Issues Resolved

This section includes software issues resolved in this release.

Job Data Changes Created User Time Entries Instead of Changing the Entry for Approval

Defect 2070424: When you edited the job data of a time entry for approval and saved your changes as an approval user without permissions to create multiple employee entries, the following happened:

- The changes were not saved after reopening the time entry
- A time entry with your changes applied was created for you as an approval user

Geolocation Tracking Permission Not Saved After Reopening ComputerEase Field

Defect 2072430: When you turned off the setting for Geolocation Tracking permission and then closed and reopened ComputerEase Field, the permission was sometimes set to on.

Timesheets Did Not Load in a Single Pay Period with 65 or More Timesheets

Defect 2077712: When you opened a single pay period with 65 or more timesheets, the timesheets did not load.

Job Names in Approvals by Job were Sometimes Incorrect

Defect 2079582: When you switched between employee and job screens quickly, the job names in approvals by job was sometimes displayed incorrectly.

1.5.1 Release Notes

These release notes topics contain a summary of features, enhancements, and software issues resolved made in ComputerEase Field 1.5.1.

Summary of Changes

Enhancements

The following is a list of enhancements for this release:

- Employee Middle Name and Suffix Display in Time Entry

Software Issues Resolved

The following is a list of software issues resolved:

- Special Character Error for Creating, Selecting, and Signing Time Entries
- Unable to Sign Timesheet When Approval Team is Removed from Job
- Missing Geo Departure Date and Time in ComputerEase Labor Distribution When Using the Start and Stop Time Notifications

Enhancements

This section includes enhancements in this release.

Employee Middle Name and Suffix Display in Time Entry

When you search for and view employee information, you can now view the middle name and suffix of the employees for time entries.

Software Issues Resolved

This section includes software issues resolved in this release.

Special Character Error for Creating, Selecting, and Signing Time Entries

Defect 2061419: When you created, selected, and signed a time entry with a special character that requires URL encoding, such as an ampersand, in the job, phase, or category, an error was displayed.

Unable to Sign Timesheet When Approval Team is Removed from Job

Defect 2052230: When you assigned an approval team to a job and then removed it, the user was unable to sign that job's time entry.

Missing Geo Departure Date and Time in ComputerEase Labor Distribution When Using the Start and Stop Time Notifications

Defect 2068087: When you used the start and stop timer from the ComputerEase Field notifications and exported that time using the Time Center in ComputerEase, the geo departure date and time were not generated in the labor distribution for the geo payroll location.
