PJ/BL/BLRMPCB/Print Milestone_Percent Complete Bills

Deltek Defect Tracking Number:

749701

Issues Resolved:

Description: The VAT/Tax ID Number printed on the bill was not updated with the customer tax code or tax exempt ID.

Customers Impacted: This defect affects Costpoint users.

Workaround Before Fix: None.

Additional Notes: A new check box, **Print Sender's VAT/Tax ID**, has been added to this screen to allow you to print the sender's value-added tax code or tax ID on milestone/percent complete bills. The tax ID comes from the Configure Company Information screen. The following changes have also been made on the bill:

- VAT/Tax ID Number has been renamed to Sender VAT/Tax ID Number.
- Customer VAT/Tax ID Number has been added under the Remit To customer address. This prints the tax exempt ID from the Misc Charges tab of the Manage Milestone Percent Complete Bills screen, if it exists. If it does not exist, Costpoint pulls the VAT/tax ID linked to the customer.
