

Deployment Date: 3/6/2015

Hot Fix: cp711_sys_005.zip; cp711_rcminsp_004.zip

MATERIALS/RECEIVING/RCMINSP/Enter QC Inspections

[Deltek Defect Tracking Number:](#)

445262

[Issues Resolved:](#)

Description: Costpoint allowed you to enter quality control edits to **Rejected** and **Accepted** serial/lot lines, which resulted in out-of-sync inventory information against serial lot information. In addition, duplicate transaction history entries were entered into the Costpoint for the rejected serial part, with the log reflecting both the history information for the original part rejection and the part acceptance.

Customers Impacted: This affects Receiving module users in Costpoint 7.1.1.

Workaround Before Fix: None.

Additional Notes: None.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

More Information:

If you have any questions, please contact Deltek support at <https://deltek.custhelp.com>.
