Overview

The Deltek Mobile Expense for Ajera 2.0 Cumulative Update (CU) 05 release includes all the software issues resolved and enhancements that were made in Mobile Expense for Ajera 2.0.1 - 2.0.5.

Note: The official name of the application is *Deltek Mobile Expense for Ajera*. This document only uses it at first mention. The succeeding instances of the application name display *Mobile Expense for Ajera*. In addition, the application name in *Apple App Store* and *Google Play* displays *Deltek Expense for Ajera*.

Custom Programs Affected

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at <http://support.deltek.com> before you install the update.

Mobile Expense for Ajera 2.0 Cumulative Update 05

Released: September 28, 2022

Enhancements

This section includes enhancements for this release.

Ability to Add an Allowed List of Hosts

SSL Certificate Validation

Mobile Expense for Ajera now supports the SSL (Secure Sockets Layer) certificate validation.

It validates the SSL certificate used for the Touch Server URL against the fingerprint you configured in the **SSL_CERT_FP1 =""** and, optionally, the **SSL_CERT_FP2 =""** parameters in the configuration.ini file. By default, the installer sets these parameters as an empty string. Deltek recommends that you set these parameters once you have confirmed you can access the system using your mobile device.

Note: This setting is optional.

To support a smooth transition when the SSL certificate expires, the system administrator should provide the fingerprint of both the old and new certificate using the SHA-256 certificate fingerprint.

Note: This validation is optional and only done with the native mobile application.

Allowed Host List

Starting with version 2.0.5, you can add a list of allowed hosts, which are host names that can perform requests on a server and which domain is usually the same domain as the Touch Server URL. You can add hosts to the new section called [ALLOWED_HOST] in the configuration.ini file.

Note: This setting is optional.

Validation only occurs when there are allowed hosts in the list. By default, there are no allowed hosts. Mobile Expense for Ajera logs any host that is attempting to make requests but is not in the list to the PHP error log.

Attention: For more information, see the [Appendix C: Allowed List of Hosts](#) section in *the Deltek Mobile Expense for Ajera Installation Guide*.

Support for PHP 8.1.9

The Touch Server has been upgraded to support PHP 8.1.9.

Latest Supported Versions for Android and iOS

The minimum supported version for Android is 9.0 and for Apple iOS is 15.0.

Software Issues Resolved

Login

Defect 1739271

Description: When you tried to reset your PIN to a value that you had already used in the past, the Mobile Expense for Ajera application did not display an error message and allowed you to log in using that PIN.

Customers Impacted: This defect affects Deltek Mobile Expense for Ajera users who are resetting their PIN to a value that they already used in the past.

Workaround Before Fix: None.

Documentation Changes

This section includes details of sections changed in the printed documentation.

| Document Name | Description of Change |
|---|---|
| Deltek Mobile Expense for Ajera Installation Guide | <ul style="list-style-type: none"> Updated the Prerequisites and Supported Mobile Operating Systems sections to cover latest supported PHP and Android/iOS versions, respectively. Added the Appendix C: Allowed List of Hosts section. |
| Deltek Mobile Expense for Ajera User Guide/ Deltek Mobile Expense for Ajera User Guide for iOS | Updated the Supported Mobile Operating Systems section to cover latest supported Android/iOS versions . |

Mobile Expense for Ajera 2.0 Cumulative Update 04

Released: March 25, 2022

Enhancements

This section includes enhancements for this release.

Support for PHP 8.1.13

The Touch Server has been upgraded to support PHP 8.1.13.

Support for Veryfi 2.2.1

This release supports Veryfi 2.2.1 version.

Software Issues Resolved

Defect 1257965

Description: When you copied an expense report, Mobile Expense for Ajera would pull the cost rate from a past expense report. You must manually update the expense report in **Manage » Time & Expense** in the Ajera application.

Customers Impacted: This defect affects all Delttek Mobile Expense for Ajera users.

Workaround Before Fix: None.

Files Updated: *Not Applicable*

Documentation Changes

This section includes details of sections changed in the printed documentation. *There are no documentation changes in this release.*

Mobile Expense for Ajera 2.0 Cumulative Update 03

Released: January 28, 2022

Enhancements

This section includes enhancements for this release.

Support for PHP 8.0.14

The Touch Server has been upgraded to support PHP 8.0.14.

Apache Cordova Upgrade to Version 10

This release includes the upgrade of Cordova iOS to 10 to support the new Veryfi version.

Software Issues Resolved

Unit-Based Expense

Defect 1575821

Description: When you copied a unit-based expense item (such as Mileage) and changed it to a non-unit based item (such as Travel), the **Units** and **Unit Rate** fields would not display in the copied expense line. Although the copied expense line was not unit-based, the same **Amount** from the original expense line (Mileage) would still be available and carried over to the non-unit-based expense, causing errors. Mobile Expense for Ajera users would not be able to know this issue because the **Units** field does not display for non-unit-based expenses in the mobile application.

Customers Impacted: This defect affects Deltek Mobile Expense for Ajera users copying unit-based expense items and changing them to non-unit based.

Workaround Before Fix: None.

Files Updated: *Not Applicable*

Documentation Changes

This section includes details of sections changed in the printed documentation. *There are no documentation changes in this release.*

Mobile Expense for Ajera 2.0 Cumulative Update 02

Released: November 5, 2021

Enhancements

This section includes enhancements for this release.

Support for PHP 8.0.11.

The Touch Server has been upgraded to support PHP 8.0.11.

iOS Version on iPad

The **Operating System** field on the **About** screen now specifies the iOS version of the iPad device you are using. In the previous release, it only displayed “iOS.”

Software Issues Resolved

Login

Defect 1528288

Description: When you tried to log on to Mobile Expense for Ajera on some iOS devices running the latest operating system (OS) version, you would be stuck on the **Usage Tracking** screen and a message informing you that your device was jailbroken would display.

Customers Impacted: This defect affects Delttek Mobile Expense for Ajera users using some iOS devices running the latest OS version.

Workaround Before Fix: Go to your corresponding application store and update all applications that need updating.

Files Updated: *Not Applicable*

Documentation Changes

This section includes details of sections changed in the printed documentation. *There are no documentation changes in this release.*

Mobile Expense for Ajera 2.0 Cumulative Update 01

Released: September 3, 2021

This was a native application release only and not installed from Deltek Software Manager (DSM).

Enhancements

This section includes enhancements for this release. *There are no enhancements in this release.*

Software Issues Resolved

[Expense Report » Expense Item](#)

Defect 1509270

Description: When you attached a .PDF file from a folder in your mobile device using the camera icon () located in the attachment field of an expense item, Ajera would save the file as .JPG instead of .PDF. This may have caused an error when printing expense reports in Ajera.

Customers Impacted: This defect affects Deltek Mobile Expense for Ajera users using the camera icon in the attachment field of an expense item to attach .PDF files on iOS mobile devices.

Workaround Before Fix: None.

Additional Notes: If attachments do not print along with the expense reports in Ajera, Deltek strongly recommends that you contact Deltek Support Center.

Files Updated: *Not Applicable.*

Documentation Changes

This section includes details of sections changed in the printed documentation. *There are no documentation changes in this release.*

Appendix A: Download and Install the Cumulative Update

Download and Install the Cumulative Update

1. From your web browser, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Cumulative Updates folder for your product and select the update to download.
6. Click **Download** at the bottom of the screen.
7. Download the file to a local workstation or a centralized server location.
8. Double-click the file to start the cumulative update.

Verify the Cumulative Update Installation

1. On the Mobile Expense for Ajera application, tap **Settings » About**.
2. In the **Native App** or **Web App** field, confirm that the version number reflects the update.

Appendix B: For Additional Information

If you need assistance installing, implementing, or using Open Plan, Deltek makes a wealth of information and expertise readily available to you.

Deltek Support Center

The Deltek Support Center is a support Web site for Deltek customers who purchase an Ongoing Support Plan (OSP).

The following are some of the many options that the Deltek Support Center provides:

- Search for product documentation, such as release notes, install guides, technical information, online help topics, and white papers
- Ask questions, exchange ideas, and share knowledge with other Deltek customers through the Deltek Support Center Community
- Access Cloud-specific documents and forums
- Download the latest versions of your Deltek products
- Search Deltek's knowledge base
- Submit a support case and check on its progress
- Transfer requested files to a Customer Care analyst
- Subscribe to Deltek communications about your products and services
- Receive alerts of new Deltek releases and hot fixes
- Initiate a Chat to submit a question to a Customer Care analyst online

Attention: For more information regarding Deltek Support Center, refer to the online help available from the Web site.

Access Deltek Support Center

To access the Deltek Support Center:

1. Go to <https://deltek.custhelp.com>.
2. Enter your Deltek Support Center **Username** and **Password**.
3. Click **Login**.

Note: If you forget your username or password, you can click the **Need Help?** button on the login screen for help.
