

Deployment Date: 9/24/2018

Hot Fix: cp711_sys_045.zip; cp711_patch7157_001.zip; cp711_cmnlb_OEMISSULIB_010.zip; cp711_oemissu1_003.zip

MATERIALS/ORDER ENTRY/OEMISSU1/Enter Sales Order Inventory Issues

Deltek Defect Tracking Number:

982561

Issues Resolved:

Description: When organization security was enabled for Manage Sales Order Inventory Issues screen under the Sales Order Entry (OE) module, the organization security profile assigned to the screen was not applied.

Customers Impacted: This defect affects Costpoint users who use the organization security feature.

Workaround Before Fix: None.

Additional Notes: A new application ID for the Manage Sales Order Inventory Issues screen, INMISSU1, has been created in Inventory (IN) module to differentiate from the Manage Sales Order Inventory Issues screen in Sales Order Entry (OE) module. This change enables you to assign distinct organization security profiles and user rights to each screen. If you access the Manage Sales Order Inventory Issues screen via OEMISSU1 and your module rights are under the OE module, you now have to set up user rights and profiles for the Manage Sales Order Inventory Issues screen using the INMISSU1 application ID. However, license for both screens remain under the OE module.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
