Deployment Date: 7/24/2019

Hot Fix: cp711_cmnlib_BENEFITSLIB_011.zip

PEOPLE/ES/ESMDIRDEP/Manage Direct Deposit

Deltek Defect Tracking Number:

1042345

Issues Resolved:

Description: The application only allowed you to select a bank account type of **Savings** when the account type was **HSA**. The application should allow you to select checking accounts for HSA account types as well.

Customers Impacted: This defect affects Costpoint Employee Self Service users.

Workaround Before Fix: Use the following steps as a workaround for this issue:

1. Employees should set up their HSA bank information as savings accounts.
2. Run a script to change the **ACH Transaction Code** (S_ACH_TRN_CD) from **Savings** to **Checking** in both the Active Bank Acct and Pending Bank Acct subtasks where the **Account Type** (ACCT_TYPE) is equal to **HSA**. This changes all the HSA accounts from **Savings** to **Checking**.

If you have a mix of savings and checking accounts for the employees, you have to run the script for each employee that wants to change it to a checking account. Once you run the script, you will not be able to edit those records manually unless you rerun the script since the error will display again until you apply the fix for this issue. Running the scripts will also not update the audit tables.
Additional Notes: None.

PEOPLE/ES/ESMDIRDEP/Manage Direct Deposit

Deltek Defect Tracking Number:

1089723

Issues Resolved:

Description: The **Routing Transit #** field (also known as Bank ID) on the screen displayed 10 digits instead of 9 digits. When you entered a 9-digit value in the **Routing Transit #** field, the field added a zero (0) to make it 10 digits. This is an issue because the **Routing Transit #** field value comes from the **Bank ID** field on the Manage Bank Routings screen which allows up to 9 digits only.

Customers Impacted: This defect affects Costpoint Employee Self Service users.

Workaround Before Fix: None.

Additional Notes: This issue occurred on the Direct Deposit screen and also on the Direct Deposit tab of the Life Events/New Hires screen.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

More Information:

If you have any questions, please contact Deltek support at https://deltek.custhelp.com.
