Hot Fix: cp711_pommain_037.zip

MATERIALS/PURCHASING/POMMAIN/Enter POs

Deltek Defect Tracking Number:

893054

Issues Resolved:

Description: When you changed the price on a purchase order (PO) linked to a manufacturing order (MO) that was relieved, you received the following error message: "This PO change would cause the subcontract incurred cost - relieved cost balance for this MO to go negative." This happened even though the allowable negative MO cost amount on the Configure Production Control Settings (PCMSET) screen was set to more than the change you made.

Customers Impacted: This defect affects Costpoint users.

Workaround Before Fix: None.

Additional Notes: None.
