N/A

Framework/Runtime

Deltek Defect Tracking Number:

462795

Issues Resolved:

Description: You encountered a system error when you selected a field from the MO subtask of the Enter Manufacturing Orders screen.
Customers Impacted: This defect affects users who create or update manufacturing orders.
Workaround Before Fix: None.
Additional Notes: None.

Files Updated:

cp711_sys_002.jar

System File Dependencies:

N/A

Framework/Runtime/Server

Issues Resolved:

Description: An enhancement was made to support Costpoint Integration with RNT.

Customers Impacted: This enhancement affects Costpoint 7.1.1 users.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

cp711_sys_002.jar

System File Dependencies:

N/A

Framework/Runtime

Issues Resolved:

Description: QC Inspection functionality has been enhanced to work with both Costpoint/MES 7.0.1 and 7.1.1.

Customers Impacted: Costpoint/MES users.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

cp711_sys_002.jar

System File Dependencies:

N/A

Framework/Runtime/Server

Issues Resolved:

Description: You could not invoke multi-line Extensibility Action on subtask that had no rows.

Customers Impacted: This defect affects you if you use Extensibility.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

cp711_sys_002.jar

PJ/BP/BPPETCUP/Update Incurred Costs for Project Budgets

Deltek Defect Tracking Number:

464916

Issues Resolved:

Description: The calculation of incurred costs for advanced project budgeting included accounts that were not in the project account group (PAG).
Customers Impacted: This defect affects Advanced Project Budgeting users in Costpoint 7.1.1.
Workaround Before Fix: Add missing accounts to the PAG with the correct function code, and mark them as "Active = N" in the PAG. If necessary, do AJEs (while the PAG still shows those accounts as "Active = Y") to move the costs from the wrong account to the correct account.
Additional Notes: When you delete accounts from PAGs or assign different PAGs to a project where the new PAG does not have all the accounts that were charged from the original PAG, the amounts from the missing accounts will be duplicated when you run Update Incurred Costs for Project Budgets.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
