

Deltek Costpoint Hot Fix Readme

Release Date: September 15, 2018

Export Only Labor-Posted Timesheets to ADP

This Costpoint release provides the ability to include or not include non-labor-posted timesheet information in the exported timesheet file that you import to your ADP system. The Manage ADP 2.5 Mapping Values screen and the Export Timesheets to ADP screen were updated to support this functionality.

Warning: This feature does not apply to ADP version 1.

Screen Updates

Export Timesheets to ADP (AOPADPTS)

When you select version **2.5+** from the **ADP Version** drop-down list, the application will use the setup of the selected map code to determine whether or not non-labor-posted timesheets should be included in the export of timesheets to ADP. You can adjust this map code setting using the new **Include Non-Labor Posted Timesheets** check box on the Manage ADP 2.5 Mapping Values screen.

Manage ADP 2.5 Mapping Values (AOMADP25)

A new **Include Non-Labor Posted Timesheets** check box for ADP map codes allows you to specify whether or not non-labor-posted timesheet information should be included in the exported ADP timesheet file. This setting is only applicable when running the Export Timesheet Data to ADP process for ADP version 2.5+.

System Requirements

This enhancement requires Costpoint 7.1.1 PATCH3500.

Application JAR Requirements

The following table lists the Costpoint 7.1.1 screens affected by this update. It includes the required JAR version for each application, if applicable.

| Domain | Module | Application ID | Application Name | Application File |
|--------|--------|----------------|-------------------------------|------------------------|
| People | Labor | AOPADPTS | Export Timesheets to ADP | cp711_aopadpts_006.zip |
| People | Labor | AOMADP25 | Manage ADP 2.5 Mapping Values | cp711_aomadp25_002.zip |

Custom Programs Affected

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Support Center at <https://deltek.custhelp.com> before you install the update.

To Download the Hot Fix/Feature Update

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Support Center credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the Hot Fix/Feature Update

Refer to the installation instructions posted on Deltek's Support Center site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the Hot Fix is Installed

1. Open the application that was updated.
2. Click **Help » About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

To Check to See if the Feature is Installed

1. Click **Help » About Costpoint** from the Costpoint toolbar.
2. Open the Features subtask and click the Feature that was just installed.
3. Open the Applications subtask. Check the list of applications and their corresponding application jars and see if they are correct and have been successfully deployed (highlighted in green).
4. Open the Patches subtask. Check the list of patches and see if they are correct and have been successfully deployed (highlighted in green).

Note: Most of the features installed have their corresponding patches, but not all.

Appendix: For Additional Information

Deltek Support Center

The Deltek Support Center is a support Web site for Deltek customers who purchase an Ongoing Support Plan (OSP).

The following are some of the many options that the Deltek Support Center provides:

- Search for product documentation, such as release notes, install guides, technical information, online help topics, and white papers
- Ask questions, exchange ideas, and share knowledge with other Deltek customers through the Deltek Support Center Community
- Access Cloud-specific documents and forums
- Download the latest versions of your Deltek products
- Search Deltek's knowledge base
- Submit a support case and check on its progress
- Transfer requested files to a Customer Care analyst
- Subscribe to Deltek communications about your products and services
- Receive alerts of new Deltek releases and hot fixes
- Initiate a Chat to submit a question to a Customer Care analyst online

Attention: For more information regarding Deltek Support Center, refer to the online help available from the Web site.

Access Deltek Support Center

To access the Deltek Support Center:

1. Go to <https://deltek.custhelp.com>.
2. Enter your Deltek Support Center **Username** and **Password**.
3. Click **Login**.

Note: If you forget your username or password, you can click the **Need Help?** button on the login screen for help.

Deltek is the leading global provider of enterprise software and solutions for government contractors, professional services firms and other project-based businesses.
