[Deltek Defect Tracking Number:](#)

824489

[Issues Resolved:](#)

Description: The part export logic of the application has been modified to send only the preferred alternate part for a particular vendor, if multiple rows exist. If no part has been specified as preferred, then keep existing logic and send the last row (highest sequence number).

Customers Impacted: This defect affects Costpoint and Project Manufacturing users.

Workaround Before Fix: None.

Additional Notes: Only one row for the same vendor can be marked as preferred.

[Deltek Defect Tracking Number:](#)

865836

[Issues Resolved:](#)

Description: When you exported parts with approved vendors together with a row for supplier alternate part for one of those vendors, the R_PART_SYNC record included a supplier part revision for each vendor row even though when no part existed for that supplier.

Customers Impacted: This defect affects Costpoint users who export project manufacturing data

Customers Impacted: This defect affects Costpoint users who export project manufacturing data.

Workaround Before Fix: Include a part for each vendor.

Additional Notes: For MES, if no revision is provided, the revision should be **N/A**. If there is no part to go along with the revision field, nothing should be sent.
