

Deltak Costpoint HotFix Readme

Released: August 28, 2017

Activate Benefit Elections by Employee or Pay Cycle

You can now run the Activate Pending Benefit Elections process for specific employees or pay cycles. Prior to this enhancement, you could only run the Activate Pending Benefit Elections process by taxable entity. The Activate Pending Benefit Elections screen includes the following updates to provide this new functionality:

- New **Employee** and **Pay Cycle** fields in the **Selection Range** group box allow you to specify employees or pay cycles that you want to include in the process.
- An **Employee Non-Contiguous Range** check box allow you use the Employee Non-Contiguous subtask for entering multiple ranges of employees that are not in sequence within the database.

Patch and System JAR Requirements

This enhancement requires Costpoint 7.1.1 System JAR 032 (CP711_sys_032.zip).

Application JAR Requirements

The following table shows the required application JAR version for each screen affected by this update:

Domain	Module	Application ID	Application Name	Application File
