Document Name	Description
<i>Deltek Touch Time & Expense for GovCon 1.2 Technical Installation Guide</i>	This document provides instructions for the installation and configuration of the application.
<i>Deltek Touch Time & Expense for GovCon 1.2 Release Notes</i>	This document contains a summary of the technical considerations, major features, and known issues of the application.

Getting Started

Use the information in this section to install and log onto Touch Time & Expense and set up PIN security.

Access Touch Time & Expense

Search for the application on the Google Play Store or Apple App Store and then install it on your device.

Touch Time & Expense supports Lightweight Directory Access Protocol (LDAP) authentication. Touch Time & Expense does not support Single sign-on (SSO).

Log On to Touch Time & Expense

1. Install *GovCon Time & Expense* from Google Play Store or Apple App Store.
2. On your first login, the application prompts you to accept Terms and Use of Service and Usage Statistics Tracking. Tap the corresponding buttons.

Usage Statistics Tracking tracks the number of times you access the application and how often you use certain features. Touch Time & Expense does not track any personal or confidential data, such as user name, projects, and clients.

3. Enter your organization's Touch Time & Expense URL using the format **https://<server>/deltektouch/govcon/time/**, where <server> refers to the host name of your Touch server.
4. Tap **Connect**.
5. Tap the **Username**, **Password**, and **Domain** fields to enter corresponding values.
6. Tap **Login**. For initial login, you can either create PIN or skip PIN creation.

Touch Time & Expense remembers your user ID on your next login. The application sets user settings to default. To log in using a different user ID and domain, tap **Forget Me on this Device** on **Settings**.

Enter a PIN Instead of Password

This procedure only applies if your administrator has configured your system to allow PIN authentication.

If you created a PIN when you log into Touch Time & Expense for the first time, you can use that PIN to log into the application instead of your user ID and password.

Log Out of Touch Time & Expense

1. Tap **More**.
2. Tap **Log Out**. You need to enter your password or PIN on your next login.

If your password is changed after PIN has been set up, the PIN will fail authentication and you will be required to login with a new password. You can set up the PIN again after login.
