PEOPLE/EMPLOYEE/LDMEINFO/Basic Employee Info

Deltek Defect Tracking Number:

963051

Issues Resolved:

Description: When the **Talent Management Active HUA ID Mapping** column contains a value of **No** and the employee has not been terminated in Costpoint, the Transfer Talent Management Data screen still allows you to successfully import a rehired employee record into Costpoint. Regardless of the value of **Talent Management Active HUA ID Mapping** column, the processing of rehires should not be successful if the Costpoint employee record has no termination date.

Customers Impacted: This defect affects Costpoint - Deltek Talent Management Integration users.

Workaround Before Fix: None,

Additional Notes: The application performs a validation only if the employee has both a termination date and an active HUA ID mapping. The HUA ID mapping must be active if there is no termination date as of the Deltek Talent Management hire date.
