PJ/BL/BLPGBILL/Calculate Billings

Deltek Defect Tracking Number:

802792

Issues Resolved:

Description: When you calculated bills with the **Auto-Release On-Hold Items** check box selected on the Calculate Standard Bills screen, Costpoint did not clear the MU_TRN_HOLD_AMT field in the OPEN_BILLING_DETL table. The Manage Open Billing Detail screen also did not display any transactional amounts on hold after the bill was calculated. It seemed everything was in order, but the transactions did not go to the bill. When you selected the **Allow Transactions to be Partially Billed** check box on the Manage Project Billing Information screen, the transactions did go to the bill, but MU_TRN_HOLD_AMT was still not cleared. **Customers Impacted:** This defect affects Costpoint users. **Workaround Before Fix:** To clear the MU_TRN_HOLD_AMT field, manually put the transactions back on hold on the Manage Open Billing Detail screen, save, and take them off hold again on the same screen. **Additional Notes:** None.
